The Honorable Members of City Council
City of Petersburg, Virginia

To the Honorable Members of City Council:

The Comprehensive Annual Financial Report (CAFR) of the City of Petersburg, Virginia (the City) for the year ended June 30, 2017, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the management of the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

Internal Control: Management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Single Audit: As a recipient of federal and state financial assistance, the City also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management of the City.

The City is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. As part of the City's single audit, tests are made to determine the adequacy of the internal control structure, including that portion related to Federal financial assistance programs, as well as to determine that the City has complied with applicable laws and regulations. Information related to this single audit, including the schedule of expenditures of federal awards, findings and questioned costs and independent auditors' reports on the internal control structure and compliance with applicable laws and regulations, is included in this report.

Budgetary Controls: The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City's governing body. Activities of the General Fund and Special Revenue Funds are included in the annual appropriated budget. Project-length financial plans are adopted for the Capital Projects Fund. The level of budgetary control (i.e., the level at which expenditures cannot legally exceed the appropriated amount) is established by function for the General Fund and the fund level for other individual funds. The City also maintains an encumbrance accounting system as one technique of accomplishing budgetary control.

The financial reporting entity includes all funds of the Primary Government (i.e., the City), as well as the component units for which the City is financially accountable. GAAP has established standards for defining and reporting on the financial reporting entity. Specifically, under GAAP the School Board of the City of Petersburg, Virginia (the School Board) is reported as a separate component unit in the City's reporting entity. This presentation is designed to emphasize that the School Board is legally separate from the City and to differentiate its financial position and results of operations from that of the City. This component unit is administered by a separate board, which is elected. The City provides a full range of services including police and fire protection; sanitation services; health and social services; the construction and maintenance of roads, streets and infrastructure; recreation activities; and cultural events. In addition to general government activities, the operations of Petersburg's public utilities and the City's transit system are also part of the primary government and included in the reporting entity.

ECONOMIC CONDITION AND OUTLOOK AND FUTURE PROSPECTS

The City's basic industries are manufacturing, government, trade and services. The manufacturing sector includes firms in the chemical, medical, metal and optical industries. The City's economic prospects are enhanced by its proximity to Richmond, the state capital, and its inclusion in the Richmond-Petersburg Metropolitan Statistical Area. Fort Lee Army Base is located adjacent to the City. Fort Lee houses the Army's Quartermaster and Logistics Management Centers. Fort Lee has an average daily population of 28,186 and employs approximately 7,804 civilians. Fort Lee has an economic impact on the region in excess of \$2.4 billion.

The region's primary medical services facility, Southside Regional Medical Center (SRMC), is located in the City. The facility, which includes a nursing school and a specialty healthcare center, is the largest private employer in the City with over 1,450 employees. SRMC along with Poplar Springs Hospital and HealthSouth Surgical Rehabilitation Hospital make Petersburg the medical services hub of the Tri-cities area.

OTHER INFORMATION

Relevant Financial Policies:

Investments are made to an investment policy that seeks to safeguard principal, meet liquidity objectives, and seek fair value rates of return within the parameters of the *Code of Virginia*. Funds held for capital projects are invested in accordance with these objectives in addition to ensuring compliance with U.S. Treasury arbitrage regulations.

Management's Discussion and Analysis: GAAP require management to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement

OTHER INFORMATION: (CONTINUED)

MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

Independent Audit: State statutes require an annual audit by independent certified public accountants. The accounting firm of Robinson, Farmer, and Cox Associates was selected by the City's audit committee. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the federal Single Audit Act of 1984 and the related requirements of OMB Circular A-133. The independent auditors' report on the basic financial statements, combining, and individual fund statements and schedules is included in the financial section of this report. The independent auditors' reports related specifically to the single audit are included in the compliance section of this report.

Acknowledgements: This report could not have been accomplished without a great deal of cooperation and assistance by the staff in a number of City departments. Also, we would like to thank the Mayor and members of the City Council for the continued interest and support.

Respectfully Submitted,

A handwritten signature in blue ink that reads "Aretha Ferrell Benavides".

Aretha Ferrell-Benavides, City Manager

Independent Auditors' Report

To the Honorable Members of City Council
City of Petersburg, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Petersburg, Virginia, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Petersburg, Virginia, as of June 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules related to pension and OPEB funding on pages 5-12, 92, and 93-96 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Petersburg, Virginia's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 27, 2017, on our consideration of the City of Petersburg, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Petersburg, Virginia's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2017

As management of the City of Petersburg, Virginia (City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City as of and for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$48,067,661 (net position).
- The City's net position increased in governmental funds and business-type activities. Governmental funds net position increased \$12,472,935 while business-type activities increased \$993,318.
- As of the close of the current fiscal year, the City's Governmental Funds reported combined ending fund balances of \$20,864,411, an increase of \$6,019,597 in comparison with the prior year. Unassigned fund balance for the General Fund increased from \$(7,728,395) to \$(143,932).

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components:

1. Government-wide financial statements,
2. Fund financial statements, and
3. Notes to the basic financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements - The Government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the City's assets, deferred inflows of resources, and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the Government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, judicial administration, public safety, public works, health and welfare services, education, parks recreation, & cultural events, and community development. The business-type activities of the City include Public Utility and Mass Transit operations.

Overview of the Financial Statements: (Continued)

The Government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate school district for which the City is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

Fund financial statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds - Governmental funds are used to account for essentially the same functions reported as Governmental activities in the government-wide financial statements. However, unlike the government-wide financial statement, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balance of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains eight individual governmental funds. The General Fund and the Capital Projects Fund are both considered to be major funds and accordingly financial information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for these funds. The six other governmental funds (Federal and State Projects Fund, Community Development Act Fund, Stormwater Fund, Blandford Cemetery Perpetual Care Fund, Clara J. McKenney Memorial Fund, and Library Endowment Fund) are considered to be non-major funds and are reported in the fund financial statements in one column and in the combining and individual fund statements and schedules as individual columns.

The City adopts an annual appropriated budget for certain Governmental funds. A budgetary comparison schedule has been provided as required supplementary information for the General Fund to demonstrate compliance with this budget.

Proprietary funds - The City maintains three enterprise funds, which are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water system, mass transportation and golf course operations. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, mass transportation and golf course activities all of which are considered to be major funds of the City.

Fiduciary funds - The City is the trustee, or fiduciary, for the City's agency and private-purpose trust funds. It is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position. The City excludes these activities from the City's government-wide financial statements because the City cannot use these assets to finance its operations. Fiduciary funds consist of private purpose trust funds and agency funds. Agency funds are City custodial funds used to provide accountability of client monies for which the City is custodian.

Overview of the Financial Statements: (Continued)

Notes to the basic financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information including the General Fund budgetary comparison schedule and pension funding activities and other supplementary information, including combining and individual fund financial statements and schedules.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a City's financial position. In the case of the City, assets and deferred inflows of resources exceeded liabilities and deferred inflows of resources by \$48,067,661 at the close of the fiscal year.

City of Petersburg's, Net Position

Current liabilities	23,017,062	16,792,319	9,400,554	8,197,749	32,417,616	24,990,068
Total liabilities	\$ 88,895,576	\$ 85,199,825	\$ 28,841,634	\$ 27,975,398	\$ 117,737,210	\$ 113,175,223
Deferred inflows of resources	\$ 2,754,298	\$ 3,991,848	\$ 313,800	\$ 307,020	\$ 3,068,098	\$ 4,298,868
Net position:						
Net investment in capital assets	\$ 20,234,034	\$ 20,071,779	\$ 37,552,117	\$ 38,557,116	\$ 57,786,151	\$ 58,628,895
Restricted	5,064,216	4,275,250	491,191	489,434	5,555,407	4,764,684
Unrestricted	(9,320,681)	(20,842,395)	(5,953,216)	(7,949,776)	(15,273,897)	(28,792,171)
Total net position	\$ 15,977,569	\$ 3,504,634	\$ 32,090,092	\$ 31,096,774	\$ 48,067,661	\$ 34,601,408
Total liabilities, deferred inflows and net position	\$ 107,627,443	\$ 92,696,307	\$ 61,245,526	\$ 59,379,192	\$ 168,872,969	\$ 152,075,499

The majority of the City's net position reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), net of any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Government-wide Financial Analysis: (Continued)

At the end of the current fiscal year, the City is able to report positive balances in most categories of net position. The requirement to record the VRS pension plan liabilities, which totaled \$27,034,547 for governmental activities caused it to report negative unrestricted net position as it will many other localities in Virginia. The Business-type activities also reported negative unrestricted position at year end, however, the City plans to remediate its negative unrestricted net position over time through increases in user fees and transfers from the general government.

Governmental Activities - Governmental activities increased the City's net position by \$12,472,935, while business-type activities increased net position by \$993,318. Key elements of these decreases are as follows:

Government-wide Financial Analysis: (Continued)

The City's net position increased \$13,215,624 during the current fiscal year. This increase was reflective of an increase in net position of governmental activities of \$12,472,935 and an increase of \$742,689 in business-type activities. Governmental activity revenues increased from \$79,306,756 to \$80,899,365, an increase of \$1,592,609 or 2.00%. There were three major factors which contributed to the increase in revenue to include decrease in operating grants and contributions of \$3,560,636, an increase in general property taxes and other local taxes of \$4,055,008, and an increase in charges for services of \$1,216,398. Governmental expenses decreased from \$79,910,015 to \$67,709,182 or \$12,200,833. There were several factors to support this decrease which were primarily in public safety, public works, and education. Public safety expenses totaled \$18,589,827 in FY 17 compared to \$23,666,410 in FY 16. Public works expenses totaled \$7,303,967 in FY 17 compared to \$11,605,106 in FY 16. Education expenses totaled \$8,775,894 in FY 17 compared to \$11,673,961 in FY 16.

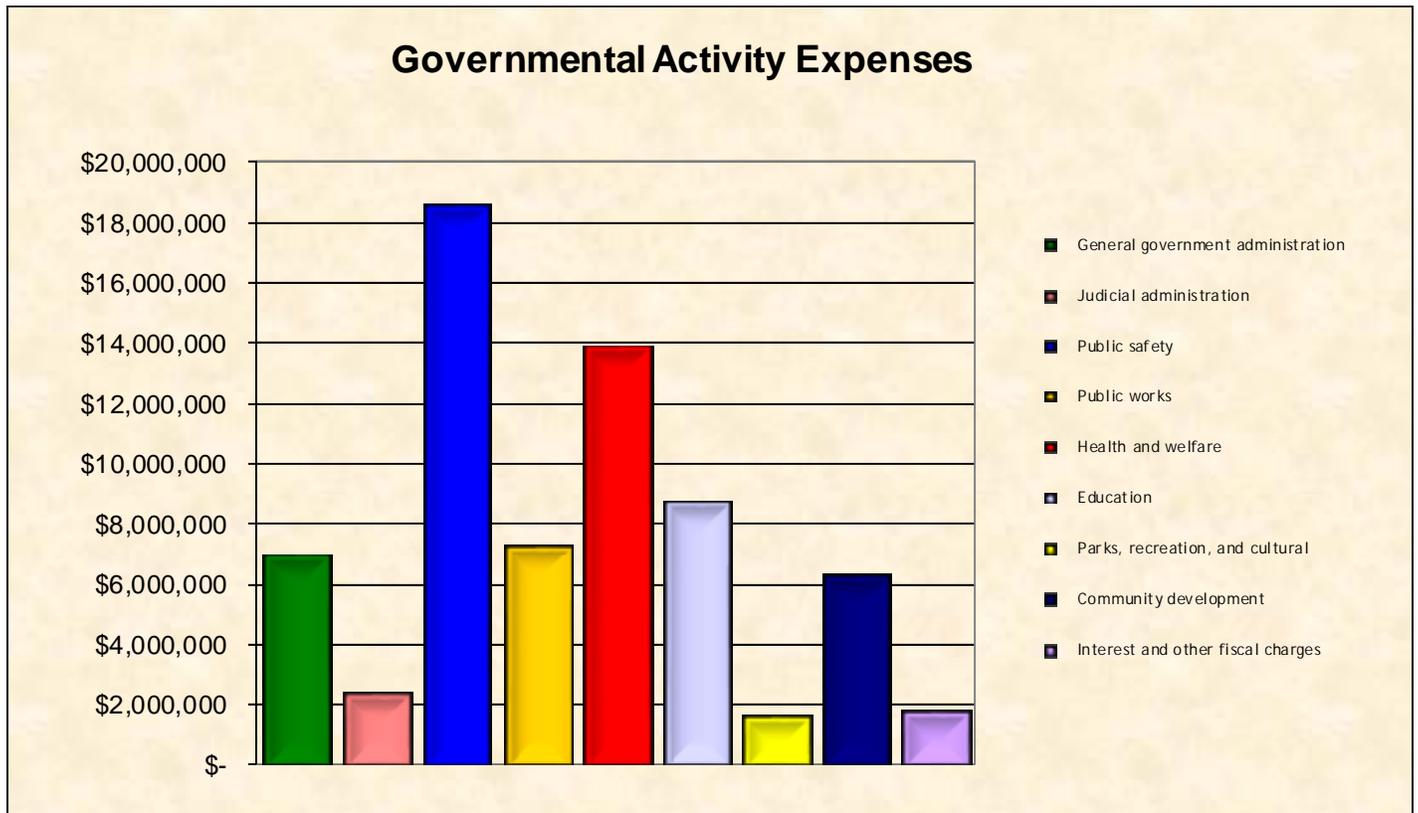

Net position increased in the business-type activities by \$993,318. The Public Utility Fund's net position increased by \$2,092,689, the Mass Transit Fund net position increased by \$1,156,226 and the Golf Course increased by \$56,855. Overall business-type activity revenues increased from \$11,373,274 to \$16,244,446 or \$5,121,801. The most significant increase was noted in Public Utility charges for services which increased from \$7,180,519 in FY 16 to \$12,334,213, or \$5,153,694. Mass Transit expenses decreased from \$5,133,570 in FY 16 to \$4,359,362 in FY 17 or \$774,208.

The chart below provides an overview of FY 16-17 revenues by program source:

Government-wide Financial Analysis: (Continued)

The chart below denotes expenses by major category.

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a City's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$20,864,411 an increase of \$6,019,598 in comparison with the prior year. The City has non-spendable balances comprised of inventory and land held for resale in the amount of \$5,193,055 and inter-fund loans in the amount of \$252,904. The City's General Fund has restricted fund balance for debt service in the amount of \$3,437,187. The fund balance of the City's General Fund increased \$7,208,719 during the current fiscal year. Key factors in the increase are as follows:

- The City's other local taxes revenue increased from \$12,341,696 to \$13,486,416 or \$1,144,720

Financial Analysis of the City's Funds: (Continued)

- Public Safety expenditures decreased from \$20,899,960 in FY 16 to \$17,745,235 in FY 17, or \$3,154,725.
- Education expenditures decreased from \$10,593,975 in FY 16 to \$8,254,730 in FY 17, or \$2,339,245.
- In FY 17 the General Fund expended \$65,861,125 while revenues totaled \$73,069,844, an excess of \$7,208,719, reference Exhibit 11.

The City's other governmental funds reflected an overall decrease in fund balances of \$1,189,121. The Capital Projects fund balance decreased \$2,729,100 and the other non-major funds increased \$1,539,979.

The Federal and State Projects Fund had revenues of \$5,296,424 and expenditures of \$4,237,579. The Federal and States Projects Fund has an increase in fund balance of \$1,058,845 in FY 17. More information on the other governmental funds can be found on Exhibit 17.

Proprietary funds - The City's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities, but in more detail.

Unrestricted net position (deficit) of the Public Utility Fund, Mass Transit Fund and the Golf Course at the end of the year were \$1,338,468, (\$4,628,652), and (\$2,663,032), respectively. Net position increased for the Public Utility Fund by \$2,092,689 and by \$56,855 for Golf Course Fund while the Mass Transit Fund had a decrease in net position of \$1,156,226. Information for these funds was discussed previously in this letter. The Multi-modal Transportation Facility was fully operational for the first year in FY 11 and state and federal funding sources in addition to charges for services were insufficient to cover operating expenses thus contributing to the decline in net position.

General Fund Budgetary Highlights

The differences between the General Fund original budget and final amended budget were caused by three main increases and decreases in appropriations. These increases and decreases caused the expenditure budget to decrease from \$70,147,563 to \$68,348,325 as disclosed on Exhibit 11. Some of the major differences can be summarized as follows:

- An increase of \$1,354,026 in health and welfare primarily for social services expenditures.
- A decrease of \$1,778,702 in public safety expenditures.
- A decrease of \$3,425,500 in education expenditures.

The total General Fund revenue budget decreased from \$70,515,514 to \$67,136,675 or \$3,378,839. More detailed information on the General Fund budget revenues and expenditures can be found on Schedules 1 and 2 of this report.

Capital Assets and Debt Administration

Capital assets - The City's investment in capital assets for its governmental and business-type activities as of June 30, 2017 totaled \$105,992,427 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, infrastructure, water capacity rights intangibles, vehicles, and machinery and equipment. Current year depreciation on the assets amounted to \$3,013,009 in the governmental activities and \$2,284,436 in the business-type activities. The City's governmental capital assets, net of accumulated depreciation, decreased by \$1,015,949. The City's business-type capital assets, net of accumulated depreciation, decreased \$696,318. More detailed information on the City's capital assets can be found in Note 6 of this report.

Long-term obligations - At the end of the current fiscal year, the City governmental activities had total long-term obligations outstanding of \$69,761,913 and the business-type activities had \$20,170,840. Of these amounts \$49,158,908 comprises debt backed by the full faith and credit of the City as general obligation and Qualified Zone Academy bonds. The City issued \$6,500,000 of tax revenue anticipation notes during the year. As noted earlier the City recorded net pension liabilities in accordance with GASB 68 and the liabilities total \$27,034,547 at June 30, 2017. More detailed information on the City's long-term obligations can be found in the Note 7 of this report.

Economic Factors and Next Year's Budgets and Rates

Based on available economic data, certain trends for the local economy have continued to show improvements while others have not. The local unemployment rate is currently at 6.7%, which is lower than the 7.6% in September, 2016. The state unemployment rate is currently 3.6%.

This factor was considered in preparing the City's budget for the 2018 fiscal year. The General Fund for FY 18 totals \$78,225,499, which is \$9,813,824 higher than the fiscal 2017 approved budget. The real estate tax rate of \$1.35 per \$100 assessment remains unchanged.

Requests for Information

This financial report is designed to provide a general overview of the City of Petersburg, Virginia's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department, City Hall Annex, Petersburg, Virginia 23803.

Fund balances above				\$ 20,864,411

Detailed explanation of adjustments from fund statements to government-wide statement of net position:

When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets among the assets of the locality as a whole.	56,885,201
Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due.	(316,977)
Other long-term assets are not available to pay for current-period expenditures and therefore, are deferred in the funds.	
Deferred inflows related to measurement of net pension liability	(2,740,915)
Deferred outflows - pension deferrals	5,378,862
Some of the City's property taxes will be collected after year-end, but are not available soon enough to pay for the current year's expenditures, and therefore are reported as unavailable in the funds.	6,168,900
Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities--both current and long-term--are reported in the statement of net position.	(70,261,913)
Net position of General Government Activities	<u>\$ 15,977,569</u>

The accompanying notes to financial statements are an integral part of this statement.

Statement of Revenues, Expenditures and Changes in Fund Balances --
 Governmental Funds

Reconciliation of Statement of Revenues, Expenditures and Changes in Fund Balances
to the Statement of Activities - Governmental Funds
Year Ended June 30, 2017

		<u>Primary Governmental Funds</u>
Amounts reported for governmental activities in the statement of activities are different because:		
Net change in fund balances - total governmental funds	\$	6,019,598
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period. The following details support this adjustment.		
Capital asset additions	\$ 1,997,060	
Depreciation expense	<u>(3,013,009)</u>	(1,015,949)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Details of this item consist of the following:		
Change in deferred taxes	\$ 1,127,624	
Increase (decrease) in deferred inflows related to the measurement of net pension liability	<u>1,242,114</u>	2,369,738
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items the treatment of long-term debt and related items. A summary of items supporting this adjustment is as follows:		
Principal retired on debt	\$ 4,681,403	
Premium on debt and capital leases	<u>37,596</u>	4,718,999
Increase (decrease) in deferred outflows related to pensions		2,028,449
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds. The following is a summary of items supporting this adjustment:		
Change in compensated absences	\$ 489,188	
Change in net pension liability	(2,526,844)	
Change in litigation payable	424,960	
Change in net OPEB obligation	(32,000)	
Change in accrued interest payable	<u>(3,204)</u>	(1,647,900)
Change in net position of governmental activities	\$	<u><u>12,472,935</u></u>

The accompanying notes to financial statements are an integral part of this statement.

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017

Note 1—Summary of Significant Accounting Policies:

The City of Petersburg, Virginia (the City) was incorporated in 1850 and its current Charter was granted in 1962. The City is governed by an elected seven member City Council. The City operates under a Council/Manager form of government and provides the following services: public safety (police and fire), public works, health and welfare services, parks, recreation and cultural, education, community and economic development and judicial and general administrative services.

A. Financial Reporting Entity

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity is financial accountability. Financial accountability includes the appointment of a voting majority of the organizations governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependent on the primary government should be included in its reporting entity. These financial statements present the City of Petersburg, Virginia (the primary government) and its component unit. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

B. Individual Component Unit Disclosures

Blended Component Unit. The City has no blended component units to be included for the fiscal year ended June 30, 2017.

Discretely Presented Component Unit. The School Board is a discretely presented component unit of the City of Petersburg, Virginia for the fiscal year ended June 30, 2017.

The School Board members are elected by the citizens and are responsible for the operations of the City's School System. The School Board is fiscally dependent on the City in that the City has the ability to approve its budget and any amendments and serves as the primary funding source for the School Board.

Complete financial statements of the School Board can be obtained from the administrative offices at Petersburg Public Schools, 255 South Boulevard East, Petersburg, Virginia 23805.

C. Other Related Organizations

Included in the City's Comprehensive Annual Financial Report

Note 1—Summary of Significant Accounting Policies: (Continued)

C. Other Related Organizations: (Continued)

Excluded from the City's Comprehensive Annual Financial Report

Joint Ventures

South Central Wastewater Authority

The South Central Wastewater Authority is considered a joint venture and therefore its operations are not included in the City's financial statements. The Counties of Chesterfield, Dinwiddie and Prince George and the Cities of Petersburg and Colonial Heights each appoint one member to the five member board. Each participating entity is required to purchase wastewater treatment services from the Authority at prescribed rates and capacity levels. Based on the City's capacity level of 10.5 million gallons out of total capacity of 20 million gallons, the City retains an on-going financial responsibility for the joint venture due to this requirement. The City's expenditures for wastewater treatment services for the year ended June 30, 2017 were \$4,898,809. The City does not retain a financial interest in the SCWA.

Complete financial statements for the Authority can be obtained from the Authority's office at 900 Magazine Road, Petersburg, Virginia 23803.

Riverside Regional Jail Authority

The Riverside Regional Jail Authority is considered a joint venture and therefore its operations are not included in the City's financial statements. The Counties of Charles City, Chesterfield, Prince George and Surry and the Cities of Petersburg, Colonial Heights and Hopewell each appoint one member to the seven member board. Each participating entity is required to commit prisoners and pay the established per diem charge in accordance with its service agreement with the RRJA. The City's expenditures for confinement services for the year ended June 30, 2017 were \$1,418,384. The City does not retain a financial interest in the RRJA.

Complete financial statements for the Authority can be obtained from the Authority's office at 1000 River Road, Hopewell, Virginia 23860.

Appomattox River Water Authority

The Appomattox River Water Authority is considered a joint venture and therefore its operations are not included in the City's financial statements. The Counties of Chesterfield, Dinwiddie and Prince George and the Cities of Petersburg and Colonial Heights each appoint one member to the five member board. Each participating entity is required to purchase water in accordance with its service agreement with the ARWA. The City's expenses for water purchased for the year ended June 30, 2017 were \$1,910,879. The City does not retain a financial interest in the ARWA.

Complete financial statements for the ARWA can be obtained from the ARWA's office at 21300 Chesdin Road, Petersburg, Virginia 23860.

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

C. Other Related Organizations: (Continued)

Jointly Governed Organizations

Central Virginia Waste Management Authority

The Central Virginia Waste Management Authority (CVWMA) is considered a jointly governed organization and therefore its operations are not included in the City's financial statements. The Counties of Charles City, Chesterfield, Goochland, Hanover, Henrico, New Kent, Powhatan and Prince George and the Cities of Petersburg, Colonial Heights, Hopewell, and Richmond and the Town of Ashland each appoint at least one member and no more than three members to the twenty member board based on population. The City appoints two of the twenty members to the CVWMA Board. The CVWMA Board has the ability to execute contracts and to budget and expend funds. No locality contributes more than 50 % of the CVWMA's funding.

Appomattox Basin Industrial Development Corporation

The Appomattox Basin Industrial Development Corporation (ABIDCO) is considered a jointly governed organization and therefore its operations are not included in the City's financial statements. The Counties of Chesterfield, Dinwiddie and Prince George and the Cities of Petersburg, Colonial Heights, and Hopewell each appoint one member to the six member ABIDCO Board. The ABIDCO Board has the ability to execute contracts and to budget and expend funds. No locality contributes more than 50 % of the ABIDCO's funding.

District 19 Community Services Board

The District 19 Community Services Board (Board) is considered a jointly governed organization and therefore its operations are not included in the City's financial statements. The Counties of Greensville, Surry, Sussex and Dinwiddie and the Cities of Petersburg, Colonial Heights, Hopewell and Emporia each appoint a member to the Board. The City cannot impose its will on the Board since it does not have the ability to modify or approve the budget or overrule or modify the decisions of the Board. The Board is fiscally independent and there is no financial benefit or burden relationship with the City.

Related Organizations

The City Council is responsible for appointing the members of the Petersburg Redevelopment and Housing Authority (the Housing Authority) and the Petersburg Industrial Development Authority (the Development Authority), but the City Council's financial accountability for these organizations does not extend beyond making these appointments. The Housing Authority provides housing to eligible families for redevelopment and conservation of housing in the City. The Housing Authority performs certain services under contract with the City for community development block grants and downtown redevelopment and conservation projects. The Development Authority was established under the Industrial Development and Revenue Act, Code of the Commonwealth of Virginia. The Development Authority has the responsibility to promote industry and develop trade by inducing manufacturing, industrial and commercial enterprises to locate or to remain in the City.

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The financial statements of the City of Petersburg, Virginia have been prepared in conformity with accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board and specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia. The more significant of the government's accounting policies are described below.

Financial Statement Presentation

Management's Discussion and Analysis - GAAP require the financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "management's discussion and analysis" (MD&A).

Government-wide and Fund Financial Statements

Government-wide financial statements - The GAAP reporting model includes financial statements prepared using full accrual accounting for all of the City's non-fiduciary activities. This approach includes not just current assets and liabilities but also capital assets and long-term liabilities (such as buildings and general obligation debt).

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its components unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the Primary Government is reported separately from certain legally separate component units for which the Primary Government is financially accountable.

Statement of Net Position - The Statement of Net Position is designed to display financial position of the Primary Government (governmental and business-type activities) and its discretely presented component unit. Governments report all capital assets, in the government-wide Statement of Net Position and report their depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories - 1) net investment in capital assets, 2) restricted; and 3) unrestricted.

Statement of Activities - The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

Reconciliation of Government-wide and Fund Financial Statements - A summary reconciliation of the difference between total fund balances as reflected on the Governmental Funds Balance Sheet and total net position for governmental activities as shown on the government-wide Statement of Net Position is presented in a schedule accompanying the Governmental Funds' Balance Sheet. The asset and liability and the deferred outflows/inflows of resources elements which comprise the reconciliation differences stem from Governmental Funds using the current financial resources measurement focus and the modified accrual basis of accounting while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. A summary reconciliation of the differences between net change in total fund balances as reflected on the Governmental Funds' Statement of Revenues, Expenditures, and Changes in Fund Balances, and the change in net position for governmental activities as shown on the government-wide Statement of Activities, is presented in a schedule accompanying the Governmental Funds' Statement of Revenues, Expenditures, and Changes in Fund Balances. The revenue and expense elements which comprise the reconciliation differences stem from the governmental funds using the current financial resources measurement focus and the modified accrual basis of accounting while the government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Administrative overhead charges are included in direct expenses. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. As a general rule, the effects of interfund activity have been eliminated from the government-wide financial statements.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. For the governmental funds, the financial statements consist of a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances. For the proprietary funds, the financial statements consist of a Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, and Statement of Cash Flows. For the fiduciary funds, the financial statements consist of a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position.

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

Budgetary comparison schedules - Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the reporting model, governments provide budgetary comparison information in their annual reports, including the government's original budget and a comparison of final budget and actual results.

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported and accounted for using the economic resources measurement focus and the accrual basis of accounting, which include all assets and liabilities associated with governmental and business-type activities. Assets and liabilities associated with fiduciary activities are included in the Statement of Fiduciary Net Position. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the City either gives or receives value without directly, receiving or giving equal value in exchange, include sales and income taxes, property taxes, grants, entitlements, and donations. On an accrual basis, revenue from sales and income taxes are recognized when the underlying exchange transaction takes place. Property taxes are recognized as revenues in the year for which they are levied. Grants, entitlements and donations are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.), which are otherwise being supported by general government revenues, (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, health and welfare, etc.) or a business-type activity. The City does not allocate indirect expenses. Operating grants presented include operating specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers non-grant related revenues to be available if they are collected within 60 days of the end of the current fiscal period. Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period to the extent they are measurable and available. Reimbursement grants, or expenditure-driven grants, are recognized as revenue when measurable, all eligibility criteria have been

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

Measurement Focus and Basis of Accounting: (Continued)

met, the related amounts become available, and if received within one year. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences, claims and judgments, and landfill closure liability and post-closure monitoring, are recorded only when payment is due.

In the fund financial statements, financial transactions and accounts of the City are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. GAAP sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a single column in the fund financial statements. Since the governmental fund financial statements are presented on a different measurement focus and basis of accounting than the government-wide financial statements' governmental activities column, a reconciliation is presented which briefly explains the adjustments necessary to reconcile the fund financial statements to the governmental activities column of the government-wide financial statements. The City's fund types utilized are as follows:

1. Governmental Funds

Governmental Funds are those through which most governmental functions typically are financed. The government reports the following funds.

- a. General Fund - The General Fund is the primary operating fund of the City. This fund is used to account for and report all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, charges for service, and interest income. A significant part of the General Fund's revenues is used principally to finance the operations of the Component Unit School Board. The General Fund is considered a major fund for reporting purposes.
- b. Special Revenue Funds - Special Revenue Funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Special Revenue Funds consist of the Federal and State Projects Fund, Community Development Act and Stormwater Fund. All of these funds are considered nonmajor funds for reporting purposes.
- c. Capital Projects Funds - Capital Projects Funds account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, except for those financed by proprietary funds or for assets held in trust for individuals, private organizations, or other governments. The Capital Projects fund is considered a major fund for reporting purposes.

Note 1—Summary of Significant Accounting Policies: (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation: (Continued)

1. Governmental Funds: (Continued)

- d. Permanent Funds - Permanent funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for the purposes that support the City's programs for the benefit of the government or its citizenry. Permanent funds consist of the Blandford Cemetery Perpetual Care, Clara J. McKenney Memorial, and Library Endowment funds. These funds are considered nonmajor funds for financial reporting purposes.

2. Proprietary Funds

Proprietary Funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time the liability is incurred. City proprietary funds consist of Enterprise Funds.

Enterprise Funds

Enterprise funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services and state and federal grants. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The City reports the following major enterprise funds.

Public Utility Fund - to account for the operations of the City's water system.

Mass Transit Fund - to account for the operations of the City's bus system.

Golf Course Fund - to account for the operations of the Dogwood Trace Golf Course.

3. Fiduciary Funds (Trust and Agency Funds) - account for assets held by the City in a trustee capacity or as an agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include Private-Purpose Trust Funds and Agency Funds. The Private-Purpose Trust Fund accounts for monies derived from investment earnings to provide hospitalization care for welfare recipients in the City and is named the Hospital Trust Fund. The Agency Funds are custodial in nature (assets equal liabilities) and does not involve measurement of results of operations. Fiduciary funds are not included in the government-wide financial statements. Agency funds include the Special Welfare, Jail Inmate, Drug Seizure and Industrial Development Authority Funds. The City's fiduciary funds are presented in the fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

E. Budgets and Budgetary Accounting

The following procedures are used by the City in establishing the budgetary data reflected in the financial statements:

1. Prior to April 30, the City Manager submits to the City Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain citizen comments.
3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Ordinance.
4. The Appropriations Ordinance places legal restrictions of budgetary control at the function level for the General Fund and the fund level for the Special Revenue Funds. City Council must approve any budget revisions at the function level once the appropriation ordinance has been adopted.
5. Capital Projects Funds are budgeted on a project-length basis. Adopted budgets may be amended or superseded by action of City Council.
6. Budgets are also adopted by City Council for the Enterprise Funds. Budget to actual comparisons for these funds are not presented since there is no legal requirement for such presentation.
7. Appropriations, except for encumbrances and committed or assigned fund balances, lapse at year-end.
8. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
9. All budgetary data presented in the accompanying financial statements is the original to the current comparison of the final budget and actual results.

F. Cash and Cash Equivalents

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. All funds, unless otherwise classified as restricted, are deposited into pooled bank accounts; the major account defined as the General Fund concentration account. As disbursements are made from the payroll, budget, and social services bank accounts, funds from the General Fund concentration account are automatically transferred to those bank accounts to cover those disbursements on a daily basis.

G. Investments

Money market investments, participating interest-earning investment contracts (repurchase agreements) that have a remaining maturity at time of purchase of one year or less, nonparticipating interest-earning investment contracts (nonnegotiable certificates of deposit (CDs)) and external investment pools are measured at amortized cost. All other investments are reported at fair value.

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

G. Investments: (Continued)

State statutes authorize the City to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the State Treasurer’s Local Government Investment Pool (LGIP).

H. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds” (i.e. the current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

All trade and property tax receivables are shown net of an allowance for uncollectibles. The City calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$4,485,026 at June 30, 2017 and is comprised of the following:

Property taxes - General Fund	\$ 1,071,267
Refuse and consumer’s utility taxes - General Fund	312,668
Stormwater fees	137,377
Public Utility Accounts	2,963,714
Total	<u>\$ 4,485,026</u>

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable December 5th. The City bills and collects its own property taxes.

I. South Central Wastewater Authority Water Capacity Rights

The City participates in the South Central Wastewater Authority joint venture. The SCWA was established when the City transferred its investment in its wastewater treatment assets, net of the related debt of approximately \$19 million, in exchange for 10.5 million gallons of capacity valued at \$1 million per 1 million gallons of capacity and a payment of \$9.5 million. The City maintained 10.5 million gallons of capacity or 52.5% of the plant’s total capacity. The joint venture agreement does not state that the City is to share in the profits and losses of SCWA, and there is no explicit, measurable equity interest in SCWA. The City reports the water capacity rights as an intangible capital asset.

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

J. Capital Assets

Capital assets, which include property, plant and equipment, infrastructure, and intangible assets are reported in the applicable governmental or business-type activities columns in the government-wide and proprietary fund financial statements. Capital assets are defined by the City as land, buildings, infrastructure, road registered vehicles, intangible assets and equipment with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life is not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. There was no interest capitalized for the year ended June 30, 2017.

Property, plant and equipment, infrastructure, and intangibles of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Intangibles	40
Land Improvements	15-20
Buildings	40
Building Improvements	20-40
Buses	12
Machinery and Equipment	5-20
Vehicles	3-10
Infrastructure	30-50

K. Compensated Absences

City employees are granted vacation and sick leave in varying amounts. In the event of termination, other than retirement, City employees are reimbursed for accumulated vacation days based on years of service and are not reimbursed for accumulated sick leave. Upon retirement, City employees are reimbursed for accumulated vacation days and accumulated sick leave. A liability for these amounts is reported in governmental funds if they have matured, for example, as a result of employee resignations and retirements.

For City governmental funds, the cost of accumulated vacation and sick leave expected to be paid based on known terminations at year-end is recorded as a fund liability and all other amounts are recorded in the government-wide statements as a liability. For City proprietary funds, the cost of vacation and sick leave is recorded as a liability when earned.

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

L. Property Taxes

The City levies real estate and personal property taxes on property within its boundaries, except those specifically exempted by statute. These levies are assessed each year as of July 1 on the estimated market value of the property, at which time a lien in favor of the City is automatically attached to the property. The City follows the practices of reassessing real estate and personal property annually.

Real estate taxes are payable in equal quarterly installments on September 30, December 31, March 31, and June 30. Personal property taxes are payable in full on June 5. Property taxes are levied to finance activities of the fiscal year in which they are due from the taxpayer. The City bills and collects taxes and recognizes such as revenues when measurable and available in the General Fund and when earned in the governmental activities. Property taxes, net of allowance for uncollectible amounts, not collected within 60 days after year end are reflected as unavailable revenue in the governmental fund financial statements. For government-wide reporting, uncollected property taxes, net of allowance for uncollectible amounts, are reported as revenues.

M. Inventory and Land Held for Resale

Inventory consists of expendable supplies held for consumption and commercial and residential property held for resale. Inventories are valued at cost or using the first-in, first-out method for the supplies held for consumption. The land parcels held for resale are valued at the lower of cost or market value.

N. Long-term Obligations

In the basic financial statements long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond discounts in the government-wide financial statements are deferred and amortized over the term of the bonds using the bonds outstanding method, which approximates the effective interest method. Bond discounts are presented as a reduction of the face amount of bonds payable.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses.

O. Fund Equity

The City reports fund balance in accordance with GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance - amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;

Note 1—Summary of Significant Accounting Policies: (Continued)

O. Fund Equity: (Continued)

- Committed fund balance - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance - amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance - amounts that are available for any purpose; positive amounts are only reported in the general fund.

When fund balance resources are available for a specific purpose in more than one classification, it is the Council policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

The City Council establishes and modifies or rescinds fund balance commitments at year-end by passage of a resolution. The City Council has not delegated this authority to assign amounts to any individual for the fiscal year ending June 30, 2017.

As of June 30, 2017, there was a deficit net position in the Golf Course Fund (\$1,659,279).

P. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Q. Internal and Intra-entity Activity

In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds have been eliminated or reclassified. Eliminations are made in the Statement of Net Position to minimize the “grossing-up” effect on assets and liabilities within the governmental and business-type activities columns of the Primary Government. Amounts reported in the funds as interfund receivables and payables are eliminated in the governmental and business-type activities columns of the government wide financial statements, except for net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Payments from a fund receiving revenue to a fund through which the revenue is to be expended are reported as transfers. Such payments include transfers for debt service and capital construction.

In the government-wide financial statements, resource flows between the Primary Government and the discretely presented Component Unit are reported as if they were external transactions.

Note 1—Summary of Significant Accounting Policies: (Continued)

R. Restricted Cash

The City has governmental fund restricted cash amounts in the General Fund and in its Capital Projects Fund, which consists of debt service reserve funds and unexpended bond proceeds, and in Permanent Funds which are restricted of amounts held for cemetery and other purposes.

S. Net Position

Net position is the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

T. Net Position Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

U. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has two items that qualify for reporting in this category. It is comprised of contributions to the pension plan made during the current year and subsequent to the net pension liability measurement date, which will be recognized as a reduction of the net pension asset or liability next fiscal year and the impact of the change in proportionate share of net pension liability. It is also comprised of certain items related to measurement of the net pension liability. These include differences between expected and actual experience, the net difference between projected and actual experience, the net difference between projected and actual earnings on pension plan investments, and changes in proportionate share of employer contributions. For more detailed information on this item, reference the pension note.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two types of items that qualify for reporting in this category. One is the deferred amount of property tax revenue. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 1—Summary of Significant Accounting Policies: (Continued)

V. Deferred Outflows/Inflows of Resources: (Continued)

to June 30 and amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, amounts prepaid on the 2nd half installments are reported as deferred inflows of resources. The other includes differences between expected and actual experience, change in assumptions, and the net difference between projected and actual earnings on pension plan investments. For more detailed information on this item, reference the pension note.

W. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's Retirement Plan and the additions to/deductions from the City's Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 2—Deposits and Investments:

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments

Statutes authorize the City to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

Custodial Credit Risk (Investments)

The City's investment policy provides that securities purchased for the City shall be held by the City Treasury or by the Treasurer's custodian. If held by a custodian, the securities must be in the City's name or in the custodian's nominee name and identifiable on the custodian's books as belonging to the City. Further, if held by a custodian, the custodian must be a third party, not a counterparty (buyer or seller) to the transaction. At June 30, 2017 all of the City's investments were held in accordance with this policy.

CITY OF PETERSBURG, VIRGINIA

Note 2—Deposits and Investments: (Continued)

Credit Risk of Debt Securities

The City’s investment policy is to follow the legal limits set forth in the Code of Virginia, 2.2-45, Investment of Public Funds Act, which describes the types of investments permitted. The City has not established credit risk limits for each category of investment; however, the City has an emphasis on high credit quality and known marketability. The City has contracted with investment advisors to ensure compliance. The City’s rated debt investments as of June 30, 2017 were rated by Standard and Poor’s and the ratings are presented below using the Standard and Poor’s rating scale.

City's Rated Debt Investment Values		
<u>Rated Debt Investments</u>	<u>Fair Quality Ratings</u>	
	<u>AAAm</u>	<u>AA+</u>
Primary Government:		
Local Government Investment Pool	\$ 302,762	\$ -
Virginia State Non-Arbitrage Program (SNAP)	9,164,247	-
U.S. Treasury Money Market Funds	698,034	-
U.S. Agency Securities	-	276,357
Total Primary Government investments	<u>\$ 10,165,043</u>	<u>\$ 276,357</u>

Interest Rate Risk

The City does not have a policy regarding interest rate risk.

<u>Investment Type</u>	<u>Investment Maturities (in years)</u>		
	<u>Fair Value</u>	<u><1 Year</u>	<u>1-5 Years</u>
Primary Government:			
Local Government Investment Pool	\$ 302,762	\$ 302,762	\$ -
Virginia State Non-Arbitrage Program (SNAP)	9,164,247	9,164,247	-
U.S. Agency Securities	276,357	-	276,357
Total Primary Government investments	<u>\$ 9,743,366</u>	<u>\$ 9,467,009</u>	<u>\$ 276,357</u>

External Investment Pools

The State Non-Arbitrage Pool (SNAP) is an open-end management investment company registered with the Securities and Exchange Commission. In May 2016, the Board voted to convert the SNAP fund to an LGIP structure, which would be managed in conformance with GASB 79. On October 3, 2016, the Prime Series became a government money market fund and the name was changed to Government Select Series. The Government Select Series has a policy of investing at least 99.5% of its assets in cash, U.S. government securities (including securities issued or guaranteed by the U.S. government or its agencies or instrumentalities) and/or repurchase agreements that are collateralized fully.

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 2—Deposits and Investments: (Continued)

External Investment Pools: (Continued)

The fair values of the positions in the Local Government Investment Pool (LGIP) are the same as the value of the pool shares. As this pool is not SEC registered, regulatory oversight of the pool rests with the Virginia State Treasury. LGIP and SNAP are amortized cost basis portfolios under the provisions of GASB 79. There are no withdrawal limitations or restrictions imposed on participants.

Foreign Currency Risk

The City does not have a policy regarding foreign currency risk and the City does not have any investments in foreign currencies.

Concentration of Credit Risk

The City does not have a policy regarding concentration of credit risk.

Note 3—Due From Other Governmental Units:

At June 30, 2017 the City has receivables from other governments as follows:

	<u>Primary Government</u>	
	<u>Governmental Funds</u>	<u>Business-type Funds</u>
Commonwealth of Virginia:		
Local sales taxes	\$ 637,797	\$ -
Miscellaneous grants	176,093	-
Shared expenses	156,970	-
Public assistance and welfare administration	253,200	-
Comprehensive services	525,640	-
Mass Transit	-	10,024
PPTRA	2,294,331	-
Communications tax	350,002	-
State special appropriation	420,000	-
Federal Government:		
Public assistance and welfare administration	332,745	-
Miscellaneous grants	205,395	-
Mass Transit	-	21,271
Total due from other governments	<u>\$ 5,352,173</u>	<u>\$ 31,295</u>

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 4—Interfund Transfers Due From/To Other Funds/Primary Government/Component Unit:

Individual fund and interfund receivable and payable balances related to working capital loans at June 30, 2017 are presented below:

<u>Fund</u>	<u>Due from Other Funds/ Component Unit</u>	<u>Due to Other Funds/ Component Unit</u>
Interfund Balances:		
General	\$ 252,904	\$ 2,482,171
Capital projects	2,761,952	-
Enterprise:		
Public Utility	48,165	-
Mass Transit	145,059	-
Golf Course	24,078	279,780
Nonmajor funds:		
Federal and State Projects Fund	-	171,840
Stormwater Fund	-	48,296
Blandford Cemetery Perpetual Care	-	250,071
Total	<u>\$ 3,232,158</u>	<u>\$ 3,232,158</u>
Reporting Entity:		
Primary Government - General Fund	\$ -	\$ 1,665,488
Primary Government - Capital Projects Fund	-	3,070,486
School Board	<u>4,735,974</u>	<u>-</u>
Total	<u>\$ 4,735,974</u>	<u>\$ 4,735,974</u>

Interfund balances have been recorded to cover fund cash deficits; however, it is expected that future revenue streams will enable repayment from the General Fund. As investments mature in the Blandford Cemetery Perpetual Care Fund, funds will be available to reimburse the General Fund.

Interfund Transfers

Interfund transfers for the year ended June 30, 2017, consisted of the following:

<u>Fund</u>	<u>Transfers In</u>	<u>Transfers Out</u>
Primary Government:		
Major Funds:		
Capital Projects Fund	\$ -	\$ 717,248
Public Utility Fund	394,888	-
Golf Course Fund	<u>322,360</u>	<u>-</u>
Total	<u>\$ 717,248</u>	<u>\$ 717,248</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgeting authorization and (3) move expenditures paid out of capital projects fund for Enterprise fund projects.

Note 7—Long-Term Obligations: (Continued)

Primary Government: (Continued)

Qualified Zone Academy Bonds (QZABs) are zero interest loans. Annually, payments are made into a sinking fund that is irrevocably pledged to the bank that issued the bonds. The sinking funds are held by the bank in custody and in escrow for the benefit of the bank and any future owners of the QZAB and are irrevocably pledged to secure the payment of the principal of the QZAB. The annual payments are deposited and invested in qualified governmental investments and accrue interest during the life of the bond. The interest inures to the benefit of the bank, just as the annual deposit. Due to the irrevocable nature of the sinking fund, the annual deposits made thereto and the interest earned to date are considered defeasance of debt. Instead of interest, the bondholder receives a tax credit.

Prepaid property taxes	13,383	-	13,383	13,383
Local delinquent real and personal property taxes	6,168,900	-	6,168,900	-
	<u>\$ 6,182,283</u>	<u>\$ 418,553</u>	<u>\$ 6,600,836</u>	<u>\$ 431,936</u>

Note 9—Commitments and Contingencies:

There were matters of noncompliance that were disclosed by audit. In addition, the Federal Government may subject grant programs to additional compliance tests which may result in disallowed expenditures. In the opinion of management, any future disallowance of current grant program expenditures, if any, would be immaterial.

The City had the following commitments at year-end:

Project	Authorized Commitment	Expended/ Expensed as of June 30, 2017	Remaining Commitment
Rehabilitation of Poor Creek Pump Station	\$ 176,530	\$ 102,205	\$ 74,325
Clock Tower Rehabilitation	987,683	458,325	529,358
Southside Depot Phase 1	791,906	740,177	51,729
Purchase of Fire Trucks	2,145,000	-	2,145,000
Total	<u>\$ 4,101,119</u>	<u>\$ 1,300,707</u>	<u>\$ 2,800,412</u>

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 10—Risk Management:

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City joined together with other local governments in Virginia to form the Virginia Municipal Group Self Insurance Association, a public entity risk pool currently operating as a common risk management and insurance program for participating local governments. The City pays an annual premium to the association for its workers compensation insurance.

In the event of a loss deficit and depletion of all available excess insurance, the Association may assess all members in the proportion which the premium of each bears to the total premiums of all members in the year in which such deficit occurs.

The City continues to carry commercial insurance for all other risks of loss, including general liability and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 11—Litigation:

At June 30, 2016, the City had the following matters of Litigation that have been settled or still pending:

Lawsuit against the City for unpaid overtime to City police officers. This case has been settled and the plaintiffs were awarded \$1,350,000 in unpaid overtime. The City's insurance carrier will cover \$550,000 of this amount. The remaining \$800,000 will be paid by the City over a three year period as follows; \$300,000 in FY 2017, \$300,000 in FY 2018, and \$200,000 in FY 2019. In addition, the plaintiffs were awarded \$100,000 in additional compensatory time. These amounts have been recorded as liabilities in the government-wide financial statements.

Threatened litigation against the City for the payment of three fire trucks in the amount of \$2,145,000. These fire trucks were not ready to be delivered until FY 2017. The City is planning on issuing a \$3,000,000 bond to be able to pay this claim. The City believes this matter will be settled without a lawsuit being filed.

Lawsuit filed against the City for breach of a lease agreement. The claim against the City involves an unexecuted \$3,050,225 lease agreement. The claim also includes \$480,000, which represents the unpaid balance of the purchase price. The City is vigorously defending these claims.

The City has had several other lawsuits brought against it. Most of this litigation is covered by insurance or settled through subsequent agreements.

Note 12—Pension Plan:

Plan Description

All full-time, salaried permanent employees of the City are automatically covered by VRS Retirement Plan upon employment. This is an agent multiple-employer plan administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the Code of Virginia, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees - Plan 1, Plan 2, and Hybrid. Each of these benefit structures has different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

RETIREMENT PLAN PROVISIONS		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>About Plan 1 Plan 1 is a defined benefit plan. The retirement benefit is based on a member’s age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.</p>	<p>About Plan 2 Plan 2 is a defined benefit plan. The retirement benefit is based on a member’s age, creditable service and average final compensation at retirement using a formula. Employees are eligible for Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.</p>	<p>About the Hybrid Retirement Plan The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as Plan 1 and Plan 2 members who were eligible and opted into the plan during a special election window. (see “Eligible Members”)</p> <ul style="list-style-type: none"> • The defined benefit is based on a member’s age, creditable service and average final compensation at retirement using a formula. • The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.

Note 12—Pension Plan: (Continued)

Plan Description (continued)

RETIREMENT PLAN PROVISIONS (CONTINUED)		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>Hybrid Opt-In Election (Cont.) Members who were eligible for an optional retirement plan (ORP) and had prior service under Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 1 or ORP.</p>	<p>Hybrid Opt-In Election (Cont.) Members who were eligible for an optional retirement plan (ORP) and have prior service under Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as Plan 2 or ORP.</p>	<p>*Non-Eligible Members (Cont.) Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under Plan 1 or Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select Plan 1 or Plan 2 (as applicable) or ORP.</p>
<p>Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions elected to phase in the required 5% member contribution but all employees are paying the full 5% as of July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.</p>	<p>Retirement Contributions Employees contribute 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some political subdivisions elected to phase in the required 5% member contribution but all employees are paying the full 5% as of July 1, 2016.</p>	<p>Retirement Contributions A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.</p>

Note 12—Pension Plan: (Continued)

Plan Description (Continued)

RETIREMENT PLAN PROVISIONS (CONTINUED)		
PLAN 1	PLAN 2	HYBRID RETIREMENT PLAN
<p>Purchase of Prior Service Members may be eligible to purchase service from previous public employment, active duty military service, an eligible period of leave or VRS refunded service as creditable service in their plan. Prior creditable service counts toward vesting, eligibility for retirement and the health insurance credit. Only active members are eligible to purchase prior service. When buying service, members must purchase their most recent period of service first. Members also may be eligible to purchase periods of leave without pay.</p>	<p>Purchase of Prior Service Same as Plan 1.</p>	<p>Purchase of Prior Service <u>Defined Benefit Component:</u> Same as Plan 1, with the following exceptions:</p> <ul style="list-style-type: none"> • Hybrid Retirement Plan members are ineligible for ported service. • The cost for purchasing refunded service is the higher of 4% of creditable compensation or average final compensation. • Plan members have one year from their date of hire or return from leave to purchase all but refunded prior service at approximate normal cost. After that one-year period, the rate for most categories of service will change to actuarial cost. <p><u>Defined Contribution Component:</u> Not applicable.</p>

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plan is also available in the separately issued VRS 2016 Comprehensive Annual Financial Report (CAFR). A copy of the 2016 VRS CAFR may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2016-annual-report.pdf>, or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 12—Pension Plan: (Continued)

Employees Covered by Benefit Terms

As of the June 30, 2015 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	<u>Number</u>
Inactive members or their beneficiaries currently receiving benefits	705
Inactive members:	
Vested inactive members	152
Non-vested inactive members	143
Inactive members active elsewhere in VRS	<u>507</u>
Total inactive members	802
Active members	<u>601</u>
Total covered employees	<u><u>2,108</u></u>

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Prior to July 1, 2012, all or part of the 5.00% member contribution may have been assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5.00% member contribution. This could be phased in over a period of up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution.

The City's contractually required contribution rate for the year ended June 30, 2017 was 12.01% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2015.

This rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the City were \$2,371,484 and \$3,708,507 for the years ended June 30, 2017 and June 30, 2016, respectively.

Net Pension Liability

The City's net pension liability was measured as of June 30, 2016. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2015, using updated actuarial assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2016.

Actuarial Assumptions - General Employees

The total pension liability for General Employees in the City's Retirement Plan was based on an actuarial valuation as of June 30, 2015, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2016.

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 12—Pension Plan: (Continued)

Actuarial Assumptions - General Employees (Continued)

Inflation	2.5%
Salary increases, including inflation	3.5% - 5.35%
Investment rate of return	7.0%, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment return rate for GASB purposes of slightly more than the assumed 7.0%. However, since the difference was minimal, and a more conservative 7.0% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 7.0% to simplify preparation of pension liabilities.

Mortality rates: 14% of deaths are assumed to be service related

Largest 10 - Non-LEOS:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females set back 2 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

All Others (Non 10 Largest) - Non-LEOS:

Pre-Retirement:

RP-2000 Employee Mortality Table Projected with Scale AA to 2020 with males set forward 4 years and females set back 2 years

Post-Retirement:

RP-2000 Combined Mortality Table Projected with Scale AA to 2020 with males set forward 1 year

Post-Disablement:

RP-2000 Disability Life Mortality Table Projected to 2020 with males set back 3 years and no provision for future mortality improvement

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period from July 1, 2008 through June 30, 2012. Changes to the actuarial assumptions as a result of the experience study are as follows:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

- Update mortality table
 - Decrease in rates of service retirement
 - Decrease in rates of disability retirement
 - Reduce rates of salary increase by 0.25% per year

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class (Strategy)</u>	<u>Target Allocation</u>	<u>Arithmetic Long-Term Expected Rate of Return</u>	<u>Weighted Average Long-Term Expected Rate of Return</u>
U.S. Equity	19.50%	6.46%	1.26%
Developed Non U.S. Equity	16.50%	6.28%	1.04%
Emerging Market Equity	6.00%	10.00%	0.60%
Fixed Income	15.00%	0.09%	0.01%
Emerging Debt	3.00%	3.51%	0.11%
Rate Sensitive Credit	4.50%	3.51%	0.16%
Non Rate Sensitive Credit	4.50%	5.00%	0.23%
Convertibles	3.00%	4.81%	0.14%
Public Real Estate	2.25%	6.12%	0.14%
Private Real Estate	12.75%	7.10%	0.91%
Private Equity	12.00%	10.41%	1.25%
Cash	1.00%	-1.50%	-0.02%
Total	<u>100.00%</u>		<u>5.83%</u>
		Inflation	<u>2.50%</u>
	*Expected arithmetic nominal return		<u>8.33%</u>

* Using stochastic projection results provides an expected range of real rates of return over various time horizons. Looking at one year results produces an expected real return of 8.33% but also has a high standard deviation, which means there is high volatility. Over larger time horizons the volatility declines significantly and provides a median return of 7.44%, including expected inflation of 2.50%.

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 12—Pension Plan: (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2018, the rate contributed by the employer for the City’s Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2018 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in Net Pension Liability

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balances at June 30, 2015	\$ 169,807,438	\$ 145,718,669	\$ 24,088,769
Changes for the year:

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 12—Pension Plan: (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension asset of the City using the discount rate of 7.00%, as well as what the City’s net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	Rate		
	(6.00%)	(7.00%)	(8.00%)
Authority			
Net Pension Liability	47,309,950	27,034,549	10,072,347

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2017, the City recognized pension expense of \$1,624,753. At June 30, 2017, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 2,703,713
Change in proportionate share	351,002	351,002
Net difference between projected and actual earnings on pension plan investments	3,697,854	-
Employer contributions subsequent to the measurement date	2,371,484	-
Total	\$ 6,420,340	\$ 3,054,715

\$2,371,484 reported as deferred outflows of resources related to pensions resulting from the City’s contributions subsequent to the measurement date will be recognized as a component of the Net Pension Asset in the fiscal year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

Year ended June 30	
2018	\$ (1,798,316)
2019	(925,501)
2020	2,200,227
2021	1,517,733
Thereafter	-

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 13—Landfill Closure and Postclosure Care Costs:

The City entered into a purchase and sale agreement dated August 31, 2009 in which the City’s property including the sanitary landfill currently operating under Virginia Solid Waste Facility Permit No. 228 was sold to an independent contractor. In addition the City and independent contractor entered into a Financial Assurance and Indemnity Agreement dated April 2011. The contractor, upon taking possession of the Landfill, has obtained a Permit from DEQ to operate the facility and pursuant to the agreement assumed all liabilities and duties for compliance with applicable laws and regulations, with the Permit and with all subsequent amendments to include maintenance of financial assurance, monitoring, corrective action, closure, and post-closure care as of January 1, 2014. As a result of these courses of actions the City’s liability for closure and post-closure care was removed from the City’s long-term obligations.

Note 14—Expenditures and Appropriations:

Expenditures exceeded appropriations at June 30, 2017 as follows:

<u>Function</u>	<u>Appropriation</u>	<u>Expenditures</u>	<u>Amount</u>
General government administration	\$ 6,353,743	\$ 6,895,282	\$ 541,539
Public safety	17,647,878	17,745,235	97,357
Community development	4,717,180	4,861,404	144,224
Debt Service	5,442,129	5,789,805	347,676

Note 15—Other Postemployment Benefits—Health Insurance:

A. Plan Description

The City Post-Retirement Medical Plan is a multiple-employer defined benefit healthcare plan which offers health insurance for retired employees. The plan is administered by the City. Retired employees, who were enrolled in the City group health insurance plan for the 24 month prior to retirement date, who were employed by City with at least 20 years of service and who retire under the VRS plan are eligible to elect post-retirement coverage in the plan. The plan has no separate financial report.

B. Funding Policy

The City establishes employer contribution rates for plan participants as part of the budgetary process each year. The City also determines how the plan will be funded each year whether it will partially fund the plan or fully fund the plan. Again this is determined annually as part of the budgetary process. For participating retirees the City contributed zero per month towards the monthly premium and the retiree contributes all remaining funds towards the monthly premium. Retirees pay 100 % of spousal premiums. Coverage ceases when retirees reach the age of 65. Surviving spouses are not allowed access to the plan.

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 15—Other Postemployment Benefits—Health Insurance: (Continued)

C. Annual OPEB Cost and Net OPEB Obligation

In accordance with GASB Statement No. 45, an actuarial study was performed calculating the postemployment healthcare costs as of June 30, 2017. The actuarial valuation estimated the Unfunded Actuarial Accrued Liability (“UAAL”) at \$1,917,000 and an Annual Required Contribution (“ARC”) of \$148,000. The annual cost of other post employment benefits (OPEB) under GASB 45 is called the annual required contribution or ARC. The City paid \$116,000 towards the estimated pay as you go cost for OPEB benefits in fiscal year 2017. The City elected to pre-fund OPEB liabilities. The City is required to contribute the annual required contribution of the employer (ARC) an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Annual OPEB Cost

The City’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the fiscal years ending June 30, 2017, 2016 and 2015 are as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2017	\$ 148,000	78%	\$ 725,000
June 30, 2016	208,000	103%	693,000
June 30, 2015	207,000	99%	700,000

For 2017, the City’s cash payments of \$116,000 was less than the annual OPEB costs. The City’s annual OPEB cost, the contributions made, and the increase in net OPEB obligation as well as the net OPEB obligation for 2017 is as follows:

	<u>City</u>
Annual required contribution	\$ 148,000
Interest on net OPEB obligation	28,000
Adjustment to annual required contribution	(28,000)
Annual OPEB cost (expense)	<u>\$ 148,000</u>
Contributions made	116,000
Increase (decrease) in net OPEB obligation	<u>\$ 32,000</u>
Net OPEB obligation - beginning of year	693,000
Net OPEB obligation - end of year	<u><u>\$ 725,000</u></u>

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 15—Other Postemployment Benefits—Health Insurance: (Continued)

D. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2017 is as follows:

Actuarial accrued liability (AAL)	\$	1,917,000
Actuarial value of plan assets		-
Unfunded actuarial accrued liability		1,917,000
Funded ratio (actuarial value of plan assets / AAL)		0%
Covered payroll (active plan members)		19,792,000
UAAL as a percentage of covered payroll		9.69%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Cost Method

In the June 30, 2017 (most recent) actuarial valuation report, the entry age actuarial cost method was used. The actuarial assumptions included a 4.0 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 7.5 percent initially, reduced by decrements to an ultimate rate of 5 percent after ten years. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2017 was thirty years.

Note 15—Other Postemployment Benefits—Health Insurance: (Continued)

E. Actuarial Methods and Assumptions

Interest Assumptions

	<u>Funded</u>
Discount rate	4.0%
Payroll growth	N/A
Inflation rate	2.5%
Health cost trend rate	7.5%

Note 16—City of Petersburg and Petersburg Library Foundation Lease Financing Arrangement:

The City of Petersburg and the Petersburg Library Foundation have entered into a sublease financing arrangement dated April 11, 2013. The City will be making lease payments to the Petersburg Library Foundation in the amounts of \$147,000 beginning in FY 2013 through FY 2018, \$134,000 in FY 2019, and \$640,000 in FY 2020 through FY2032. These payments are subject to annual appropriation by the City.

Note 17—Restatement of Fund Balance/Net Position

Fund Balance/Net Position at June 30, 2016 was restated as follows:

	<u>Public Utility Fund</u>	<u>Business- type Activities</u>
Fund Balance/Net position, as previously reported	\$ 13,727,202	\$ 31,503,567
Adjustment for:		
Inventory error	\$ (156,164)	\$ (156,164)
Accounts Receivable	(250,629)	(250,629)
Total adjustments	<u>\$ (406,793)</u>	<u>\$ (406,793)</u>
Fund Balance/Net position, as restated	<u>\$ 13,320,409</u>	<u>\$ 31,096,774</u>

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 18—Adoption of Accounting Principles:

Governmental Accounting Standards Board Statement No. 72, *Fair Value Measurement and Application*. The City implemented the provisions of the above Statement during the fiscal year ended June 30, 2016. The Statement generally requires investments to be measured at fair value. The Statement requires the City to use valuation techniques which are appropriate under the circumstances and are either a market approach, a cost approach or an income approach. The Statement establishes a hierarchy of inputs used to measure fair value. All required disclosures are located in Note 20.

Governmental Accounting Standards Board Statement No. 79, *Certain External Investment Pools and Pool Participants*

The City implemented the provisions of the above Statement during the fiscal year ended June 30, 2016. This Statement addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. An external investment pool qualifies for that reporting if it meets all of the applicable criteria established in this Statement. There was no material impact on the City's financial statement as a result of the implementation of Statement No. 79. All required disclosures are located in Note 2.

Governmental Accounting Standards Board Statement No. 82, *Pension Issues - an amendment of GASB Statements No. 67, No. 68, and No. 73*

The City early implemented provisions of the above Statement during the fiscal year ended June 30, 2016. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. No restatement was required as a result of this implementation.

Note 19—Upcoming Pronouncements:

Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, improves the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement replaces Statements No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple Employer Plans*. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, as amended, Statement 43, and Statement No. 50, *Pension Disclosures*. This Statement is effective for financial statements for fiscal years beginning after June 15, 2016.

Note 19—Upcoming Pronouncements: (Continued)

Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pension*, improves accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans. This Statement is effective for fiscal years beginning after June 15, 2017.

Statement No. 77, *Tax Abatement Disclosures*, will increase the disclosure of tax abatement agreements to disclose information about the agreements. The requirements of this Statement improve financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2015.

Statement No. 81, *Irrevocable Split-Interest Agreements*, improves accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2016, and should be applied retroactively.

Management is currently evaluating the impact these standards will have on the financial statements when adopted.

Note 20—Fair Value Measurements:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The City maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs reflect assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels as follows:

- Level 1. Quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at a measurement date
- Level 2. Directly or indirectly observable inputs for the asset or liability other than quoted prices
- Level 3. Unobservable inputs that are supported by little or no market activity for the asset or liability

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk.

CITY OF PETERSBURG, VIRGINIA

Notes to Financial Statements
As of June 30, 2017 (Continued)

Note 20—Fair Value Measurements: (Continued)

The City has the following recurring fair value measurements as of June 30, 2017:

Investment	Fair Value Measurements Using			
	6/30/2017	Quoted Prices in Active Markets or Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
U.S. Government Securities	\$ 698,034	\$ 698,034	\$ -	\$ -
Total	\$ 698,034	\$ 698,034	\$ -	\$ -

Note 21—Subsequent Events:

On August 17, 2017, the City issued \$10,895,000 General Obligation and Refunding Bonds Series 2017A and \$17,150,000 General Obligation Refunding Bonds, Series 2017B with interest rates of 4.735% and 4.172% respectively. The Note matures on October 1, 2017 with an interest rate of 4.50%.

REQUIRED SUPPLEMENTARY INFORMATION

Note to Required Supplementary Information:

Presented budgets were prepared in accordance with accounting principles generally accepted in the United States of America.

Notes to Required Supplementary Information
Year Ended June 30, 2017

Changes of benefit terms - There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation. The 2014 valuation includes Hybrid Retirement Plan members for the first time. The hybrid plan applies to most new employees hired on or after January 1, 2014 and not covered by enhanced hazardous duty benefits. Because this is a fairly new benefit and the number of participants was relatively small, the impact on the liabilities as of the measurement date of June 30, 2016 is not material.

Changes of assumptions - The following changes in actuarial assumptions were made effective June 30, 2013 based on the most recent experience study of the System for the four-year period ending June 30, 2012:

Largest 10 - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

Largest 10 - LEOS:

- Update mortality table
- Decrease in male rates of disability

All Others (Non 10 Largest) - Non-LEOS:

- Update mortality table
- Decrease in rates of service retirement
- Decrease in rates of disability retirement
- Reduce rates of salary increase by 0.25% per year

All Others (Non 10 Largest) - LEOS:

- Update mortality table
- Adjustments to rates of service retirement for females
- Increase in rates of withdrawal
- Decrease in male and female rates of disability

(2) From Table 7

Computation of Direct and Overlapping Bonded Debt and Legal Debt Margin
Fiscal Year Ended June 30, 2017

	<u>Total Direct Debt (1)</u>	<u>Percentage Applicable to Government</u>	<u>Amount Applicable to Government</u>
City of Petersburg	\$ 42,099,650	100%	\$ 42,099,650
Total assessed value of real estate			\$ <u>1,956,730,916</u>
10% legal debt limit			\$ <u><u>195,673,092</u></u>

(1) Total direct debt includes the following governmental activities (no business activities are included in this computation):

General Obligation Bonds	\$ 30,712,204
Stormwater Revenue Bonds	1,946,532
State Literary Fund Loans	1,750,000
Capital leases	1,280,219
School Qualified Zone Academy Bonds	<u>6,410,695</u>
Total	<u><u>\$ 42,099,650</u></u>

The City of Petersburg has no overlapping debt.

Per the Code of Virginia, the City's legal debt margin is equal to ten percent of its total assessed value of real estate.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Members of the City Council
City of Petersburg, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Petersburg, Virginia as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City of Petersburg, Virginia's basic financial statements and have issued our report thereon dated November 27, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Petersburg, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Petersburg, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Petersburg, Virginia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses (2017-001, 2017-002, 2017-003, 2017-004, 2017-005, 2017-006, 2017-007, 2017-008, 2017-009, 2017-010, 2017-011, 2017-012).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Petersburg, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2017-013, 2017-014, 2017-015, 2017-016, 2017-017, 2017-018, 2017-019, 2017-020, and 2017-021.

City of Petersburg, Virginia's Response to Findings

City of Petersburg, Virginia's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. City of Petersburg, Virginia's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance For Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance

To the City Council
City of Petersburg, Virginia

Report on Compliance for Each Major Federal Program

We have audited the City of Petersburg, Virginia's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of Petersburg, Virginia's major federal programs for the year ended June 30, 2017. City of Petersburg, Virginia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Petersburg, Virginia's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Petersburg, Virginia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City of Petersburg, Virginia's compliance.

Basis for Qualified Opinion on Workforce Investment Act Cluster and Child Nutrition Cluster

As described in the accompanying schedule of findings and questioned costs, the City of Petersburg, Virginia did not comply with requirements regarding CFDA 17.258/17.259/17.278 Workforce Investment Act Cluster and CFDA 10.593/10.555/10.559 Child Nutrition Cluster as described in finding numbers 2017-022 and 2017-023 for subrecipient monitoring and allowable costs. Compliance with such requirements is necessary, in our opinion, for the City of Petersburg, Virginia to comply with the requirements applicable to that program.

Qualified Opinion on Assistant to Firefighters Grant and Federal Transit Cluster

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the City of Petersburg, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on Workforce Investment Act Cluster and Child Nutrition Cluster for the year ended June 30, 2017.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the City of Petersburg, Virginia complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2017.

Other Matters

City of Petersburg, Virginia's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. City of Petersburg, Virginia's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Management of the City of Petersburg, Virginia is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Petersburg, Virginia's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Petersburg, Virginia's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2017-022 and 2017-023 to be material weaknesses.

Report on Internal Control Over Compliance (continued)

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

City of Petersburg, Virginia's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. City of Petersburg, Virginia's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CITY OF PETERSBURG, VIRGINIA

Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2017

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the City of Petersburg, Virginia under programs of the federal government for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the reporting requirements of OMB Uniform Guidance. Because the Schedule presents only a selected portion of operations of the City of Petersburg, Virginia, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City of Petersburg, Virginia.

Note 2 - Summary of Significant Accounting Policies

(1) Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments and Uniform Guidance*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available.

(2) Pass-through entity identifying numbers are presented where available.

Note 3 - Food Donation

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed.

Note 4 - De Minimis Cost Rate

The City did not elect to use the 10-percent de minimis indirect cost rate allowed under Uniform Guidance.

Note 5 - Relationship to Financial Statements

Federal expenditures, revenues and capital contributions are reported in the City's basic financial statements as follows:

Intergovernmental federal revenues per the basic financial statements:

Primary government:	
General Fund	\$ 4,414,465
Capital Projects Fund	19,432
Nonmajor governmental funds	1,958,776
Mass Transit Fund	1,396,787
Component Unit:	
School Board	<u>11,583,857</u>
Total federal expenditures per basic financial statements	<u>\$ 19,373,317</u>
Total federal expenditures per the Schedule of Expenditures of Federal Awards	<u><u>\$ 19,373,317</u></u>

CITY OF PETERSBURG, VIRGINIA

Schedule of Findings and Questioned Costs
Year Ended June 30, 2017

SECTION I - SUMMARY OF AUDITORS RESULTS

Financial Statements

Type of auditors' report issued:	Unmodified
Internal control over financial reporting:	
Material weakness(es) identified?	Yes
Significant deficiency(ies) identified?	None reported
Noncompliance material to financial statements noted?	Yes

Federal Awards

Internal control over major programs:	
Material weakness(es) identified?	Yes
Significant deficiency(ies) identified?	None reported
Type of auditors' report issued on compliance for major programs:	Qualified
Any audit findings disclosed that are required to be reported in accordance with 2 CFR, Section 200.516 (a)?	Yes

Identification of major programs:

<u>CFDA #</u>	<u>Name of Federal Program or Cluster</u>
10.553/10.555/10.559 10.561	Child Nutrition Cluster State Administrative Matching Grants for the Supplemental Nutrition Program
93.558	Temporary Assistance for Needy Families
93.659	Adoption Assistance
93.778	Medical Assistance Program
14.228	Community Development Block Grants/States Program and Non-entitlements Grants in Hawaii
20.507	Federal Transit Cluster
17.258/17.259/17.278	WIOA Cluster

Dollar threshold used to distinguish between Type A and Type B programs:	\$750,000
Auditee qualified as low-risk auditee?	No

SECTION II - FINANCIAL STATEMENT FINDINGS

2017-001 Material Weakness - Utility Billing Reconciliation

Criteria: The Utility Billing Subsidiary System should be reconciled to the general ledger on a monthly basis.

Condition: The City was not reconciling the Utility Billing Subsidiary System to the General Ledger on a monthly basis.

Cause: The City did not have anyone in the Utility Department that was reconciling the Utility Billing Subsidiary System to the general ledger on a monthly basis.

Effect: There could be unexplained, undocumented material differences between the utility billing Subsidiary System and the General Ledger.

Recommendation:

We recommend the City implement procedures to ensure the Utility Billing Subsidiary System reconciles to the General Ledger and any differences noted during the reconciliation are documented and corrected.

Management Response:

We concur with the recommendation. The City will develop and implement procedures to ensure the Utility Billing Subsidiary System reconciles to the General Ledger and any differences noted during the reconciliation are documented and corrected.

2017-002 Material Weakness - Utility Billing Reconciliation System

Criteria: The Utility Billing Subsidiary System has a reconciliation feature to aid in the reconciliation of the Utility Billing Subsidiary System to the general ledger.

Condition: The Utility Billing Reconciliation System has not been interfaced properly for some time. The interface issues are related to the system's ability to reconcile the outstanding A/R amounts to what the system believes the accounting system should reflect.

Cause: When the Utility Billing System was set up initially or after changes have been made to general ledger accounts, the interfaces of the Reconciliation System was not picking up all required general ledger accounts.

Effect: As a result, the reconciliation module within the Utility Billing System had material differences throughout the year.

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-002 Material Weakness - Utility Billing Reconciliation System: (Continued)

Recommendation:

We recommend the City correct the interfaces within the reconciliation module so that the reconciliation system is accurate.

Management Response:

We concur with the recommendation. The City will review the interface between the Utility Billing Subsidiary System and the Accounting System and correct any discrepancies identified.

2017-003 Material Weakness - Utility Billing Errors and Insufficient Edit Checks

Criteria: After the initial billing process has been completed and prior to the utility bills being finalized, sufficient edit checks should be run to minimize the amount of billing errors.

Condition: During FY17, utility bills were processed and with substantial errors, whereby material adjustments were needed to correct the initial billings.

Cause: Per conversations with City personnel, the presumed cause for this error was the City converted the measurement of usage to units measured in cubic feet as opposed to gallons and subsequently did not adjust rates within the utility system to the corresponding change in measurement. Sufficient edit checks were not generated prior to the utility bills being finalized, which may have prevented the material errors.

Effect: This caused utility billing efforts to be delayed and bills were processed with substantial errors.

Recommendation:

We recommend the City implement procedures to ensure adequate edit checks are preformed prior to finalizing the billings.

Management Response:

We concur with the recommendation. The City will develop and implement procedures to ensure adequate edit checks are performed prior to finalizing the billings.

CITY OF PETERSBURG, VIRGINIA

Schedule of Findings and Questioned Costs
Year Ended June 30, 2017 (Continued)

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-004 Material Weakness - Lack of Internal Controls over Adjustments to Customer Utility Accounts

Criteria: Internal Controls should be in place over adjustments to customer utility accounts to prevent unauthorized write-offs to customer accounts.

Condition: Based on our testing and pursuant to discussions with City personnel, for a majority of the fiscal year ending June 30, 2017, there were no internal controls in place over the adjustment of customer utility accounts.

Cause: The City did not limit access to making adjustments to customer utility accounts only to those who are authorized to make adjustments.

Effect: Unauthorized write-offs to customer accounts could occur.

Recommendation:

We recommend the City implement internal controls over adjustments to customer utility accounts to prevent unauthorized write-offs to customer accounts.

Management Response:

We concur with the recommendation. The City will develop and implement internal controls over adjustments to customer utility accounts to prevent unauthorized write-offs to customer accounts.

2017-005 Material Weakness- Lack of Documentation Over Adjustments to Utility Billings

Criteria: Documentation should be retained to support adjustments made to utility bills throughout the year.

Condition: During the fiscal year ending June 30, 2017, the City recorded material adjustments to utility bills, however, the City did not retain documentation supporting the purpose or reason adjustments were necessary.

Cause: After utility readings are obtained, an edit report is generated to review bills prior to sending to the customers. Work orders are then created to address the potential errors. The work orders determine if an adjustment is necessary prior to printing the bill. However, the work orders were/are not being retained to support the conclusion to adjust the utility bills.

Effect: There was no supporting documentation to substantiate material adjustments made to utility bills throughout the year.

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-005 Material Weakness- Lack of Documentation Over Adjustments to Utility Billings: (Continued)

Recommendation:

We recommend the City retain appropriate documentation to support and substantiate adjustments made to utility bills.

Management Response:

We concur with the recommendation. The City will develop and implement procedures to retain appropriate documentation to support and substantiate adjustments made to utility bills.

2017-006 Material Weakness - Insufficient Listing for Water and Sewer Customer Deposits

Criteria: A detailed listing by customer should be retained to support water and sewer customer deposits recorded in the general ledger.

Condition: It was noted during the audit that there was \$645,758 included in the water and sewer customer deposit listings that did not have any detail regarding which customers the deposits were for.

Cause: The City did not retain a detailed listing to support a material amount of the water and sewer customer deposits recorded in the general ledger.

Effect: The City had material water and sewer customer deposits recorded in the general ledger that was not supported by the appropriated detailed customer deposit listing.

Recommendation:

We recommend the City retain sufficient listings by customer to support all water and sewer customer deposits.

Management Response:

We concur with the recommendation. The City will develop and implement procedures to retain sufficient listings by customer to support all water and sewer customer deposits.

CITY OF PETERSBURG, VIRGINIA

Schedule of Findings and Questioned Costs
Year Ended June 30, 2017 (Continued)

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-007 Material Weakness - Reconciliation of Property Tax Delinquent Lists to General Ledger

Criteria: Property tax delinquent lists should be reconciled to the general ledger on a monthly basis.

Condition: During fiscal year 2017 the City was not reconciling the property tax delinquent lists to the taxes receivable accounts as reported in the general ledger on a monthly basis or at year-end.

Cause: The Treasurer's Office was not reconciling the delinquent lists to the receivable accounts in Fund 999.

Effect: As a result, material adjustments to the City's general ledger were necessary.

Recommendation:

We recommend the City reconcile property tax delinquent lists to the general ledger on a monthly basis and any differences be investigated and corrected.

Management Response:

We concur with the recommendation. The City will develop and implement procedures to reconcile property tax delinquent lists to the general ledger on a monthly basis and any differences be investigated and corrected.

2017-008 Material Weakness - Insufficient Accounting and Financial Reporting Throughout the Fiscal Year

Criteria: Accurate Accounting and Financial Reporting procedures should be in place throughout the year.

Condition: During our audit we have observed the City's contracted audit preparation consultant was required to record a large number of adjustments at year-end. Moreover, it was necessary for the consultant to perform numerous reconciliations to prepare the City's accounting records for the audit and external reporting purposes. Many of the adjustments and reconciliations performed by the consultant should be conducted throughout the year as part of routine accounting and financial reporting procedures.

Cause: The City finance department did not have adequate staff to ensure routine accounting and financial reporting procedures were done.

Effect: The audit preparation consultants did not commence their duties for FY 17 until the end of June 2017. Therefore the City's general ledger was not accurate or reliable for the entire fiscal year June 30, 2017.

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-008 Material Weakness - Insufficient Accounting and Financial Reporting Throughout the Fiscal Year: (Continued)

Recommendation:

We recommend the City evaluate the Finance Department and develop procedures to aid in accounting and financial reporting for capital assets, long-term obligations, general property tax receivables, water and sewer receivables, other miscellaneous receivables, state and federal revenues and similar accounts that have required adjustments by the contracted consultant. We also recommend development of a monthly procedural checklist which would require a specified individual to perform reviews of budget-to-actual results for revenues and expenditures actual as well as monitoring the balance sheet accounts. By implementing procedures in the Finance Department by qualified Finance personnel the City would benefit from reliable financial data through-out the fiscal year in addition to reducing the number of adjustments required at year-end.

Management Response:

We concur with both recommendations.

- The City is currently reshaping the Finance Department in order to ensure it is staffed with the appropriated competencies and adheres to best practices. The Finance Department is currently developing procedures to aid in accounting and financial reporting for capital assets, long-term obligations, general property tax receivables, water and sewer receivables, other miscellaneous receivables, state and federal revenues and similar accounts and incorporating the reconciliation and necessary adjustments throughout the year rather than at year end.*
- The City will develop and implement a monthly procedural checklist which will require a specified Finance Department individual to perform reviews of budget-to-actual results for revenues and expenditures as well as monitoring the balance sheet accounts.*
- The City is in the process of hiring an external Internal Auditor who will be responsible to ensure that all of the check-list items developed during the audit are conducted in a timely manner.*
- The City has contracted the Internal Auditor function with an accounting firm who will be responsible to ensure that all of the check-list items developed during the audit are conducted in a timely manner.*

CITY OF PETERSBURG, VIRGINIA

Schedule of Findings and Questioned Costs
Year Ended June 30, 2017 (Continued)

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-009 Material Weakness- Material Audit Adjustments Proposed by the External Auditor

Criteria: Per Statement on Auditing Standards 115, identification of a material adjustment to the financial statements that was not detected by the entity's internal controls indicates that a material weakness may exist.

Condition: The financial statements required material adjustments by the Auditor to ensure such statements complied with Generally Accepted Accounting Principles (GAAP). Material audit adjustments were proposed to a multitude of accounts and financial statement groups including receivables, capital assets, debt and revenue and expenditure accounts to be in accordance with Generally Accepted Accounting Principles.

Cause: The City failed to identify all year end accounting adjustments necessary for the financial statements to be prepared in accordance with current reporting standards.

Effect: There is more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal controls over financial reporting.

Recommendation:

We recommend the City implement procedures to ensure the financial statements are materially correct in accordance with General Accepted Accounting Principles.

Management Response:

We concur with the recommendation. The City will develop and implement procedures to ensure the financial statements are materially correct in accordance with General Accepted Accounting Principles.

2017-010 Material Weakness - Unrecorded Workforce Investment Act Federal Grant

Criteria: All revenues and expenditures related to federal grants in which the City is listed as the Subrecipient should be recorded in the financial statements in accordance with Generally Accepted Accounting Principles.

Condition: The City is the subrecipient of a federal Workforce Investment Act grant that has been passed-through from the Virginia Community College System. The City then has passed-through these grant funds to the Crater Regional Workforce Investment Board & Learn to Earn, Inc. The City did not record \$849,090 of grant revenue and pass-through expenditures in its financial statements in accordance with Generally Accepted Accounting Principles.

Cause: The City does not request and drawdown grant funds from the Virginia Community College System. Instead the Crater Regional Workforce Investment Board & Learn to Earn, Inc. requests and is sent grant funds directly from the Virginia Community College System. As a result of this process, the City failed to recognize and record \$849,090 of grant revenues and pass-through expenditures for FY 17.

CITY OF PETERSBURG, VIRGINIA

Schedule of Findings and Questioned Costs
Year Ended June 30, 2017 (Continued)

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-010 Material Weakness - Unrecorded Workforce Investment Act Federal Grant: (Continued)

Effect: Because of the adjustment, the financial statements and the Schedule of Expenditures of Federal Awards were materially misstated.

Recommendation:

We recommend the City implement procedures to ensure all federal grants in which the City is the subrecipient are identified and recorded in the financial statements and the schedule of expenditures of federal awards as required by Generally Accepted Accounting Principles.

Management Response:

We concur with the recommendation. The City will develop and implement procedures to ensure all federal grants in which the City is the subrecipient are identified and recorded in the financial statements and the schedule of expenditures of federal awards as required by Generally Accepted Accounting Principles.

2017-011 Material Weakness - Material Reclassifications Proposed to Federal Revenues

Criteria: Federal Revenues should be appropriately recorded in the financial statements.

Condition: The Auditor proposed material adjustments to the City's recording of revenues received from federal sources - direct and pass-through federal revenues. The City had commingled and misclassified a multitude of federal revenues with state and/or local revenues within the accounting system.

Cause: The City does not have adequate staff or resources to monitor the City's posting of federal grant revenues or prevent the City's Schedule of Expenditures of Federal Awards, which is presented in the City's CAFR, from being materially misstated.

Effect: The City's Schedule of Expenditures of Federal Awards could be materially misstated.

CITY OF PETERSBURG, VIRGINIA

Schedule of Findings and Questioned Costs
Year Ended June 30, 2017 (Continued)

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-011 Material Weakness - Material Reclassifications Proposed to Federal Revenues: (Continued)

Recommendation:

We recommend the City implement procedures to ensure the City's federal revenues are appropriately accounted for and reported. This includes maintaining a list of all federal grants received, the CFDA number for each federal grant, the amount expended for each federal grant, the amount received for each federal grant, and a review process ensuring that all federal revenues are accurately recorded in the general ledger.

Management Response:

We concur with the recommendation.

- The City is in the process of developing and implementing procedures to ensure the City's Federal revenues are appropriately accounted for, including maintaining a list of all Federal grants received, the CFDA number for each Federal grant, the amount expended for each Federal grant, the amount received for each Federal grant, and a review process ensuring that all Federal revenues are accurately recorded in the general ledger.*
- Also, the City will identify staff resources to monitor the City's posting of Federal grant revenues in order to prevent the City's Schedule of Expenditures of Federal Awards from being materially misstated in the City's CAFR.*

2017-012 Material Weakness - Internal Controls over Inventory

Criteria: Internal controls over inventory should be in place to prevent misstatements in the financial statements and misappropriation of assets.

Condition: Routinely, an inventory count/verification is requested of various departments by the Finance Department. The inventory sheets are remitted to the Finance Department. There was a lack of monitoring or review process over the data and information received as part of these requests from other departments.

Cause: The City does not have sufficient internal controls over inventory to prevent misstatements in the financial statements and misappropriation of assets.

Effect: More than a remote possibility of misstatement of financial statements and misappropriation of assets.

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-012 Material Weakness - Internal Controls over Inventory: (Continued)

Recommendation:

We recommend an adequately trained and independent City staff member perform the inventory count/verification. Also staff personnel from the Finance Department monitor and review the process.

Management Response:

We concur with the recommendation. The City will take appropriate action to ensure an adequately trained and independent City staff member perform routine inventory count/verification. Also, staff personnel from the Finance Department should monitor and review the process.

2017-013 Compliance Finding - Prompt Payment of Bills by Localities

Criteria: In accordance with Virginia Code Section 2.2-4352 *Prompt Payment of Bills by Localities*, local governments that acquire goods or services, or conducts any other type of contractual business with a nongovernmental, privately owned enterprise, shall promptly pay for the completed delivered goods or services by the required payment date. The required payment date is either the due date of the invoice or, if no due date is noted, not more than forty-five days after goods or services are received or not more than forty-five days after this invoice is rendered.

Condition: As a result of the City's financial condition, there were many instances in which the City was not remitting payment to vendors for goods and services in a timely manner.

Cause: The City's poor financial condition did not allow for the City to pay its vendors for goods and services in a timely manner.

Effect: Late payment to vendors can lead to payment of late fees, interest and the potential for litigation.

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-013 Compliance Finding - Prompt Payment of Bills by Localities: (Continued)

Recommendation:

We recommend the City pay its vendors in a timely manner.

Management Response:

We concur with the recommendation.

- *The City has developed and implemented procedures to comply with the Virginia Code Section 2.2-4352 Prompt Payment of Bills by Localities.*
- *The City has worked in phases to pay its bills, resulting in significantly reduced unpaid bills.*
- *The City has a policy of no longer processing and subsequently holding checks. If a check is processed, it is ready to be provided to the vendor.*

2017-014 Compliance Findings - Nonpayment of Virginia Retirement System Contributions

Criteria: Per the VRS Member requirements, contributions are to be remitted by the 10th of the following month.

Condition: At June 30, 2017 the City had \$1,848,523.88 of retirement contributions that had not been remitted to VRS. The unpaid balance represents the City's portion (employer contribution) of the contributions for the months November 2015 to April 2016 and June 2016.

Cause: The City's poor financial condition did not allow for the City to pay its VRS contributions in a timely manner.

Effect: Employers that do not pay defined benefit contributions on time may be assessed a penalty of 5% of the amount due, plus interest at the rate of 1% per month until the payment is made.

Recommendation:

We recommend the City pay its VRS contributions in a timely manner.

Management Response:

We concur with the recommendation. The City, in working with VRS, has agreed to pay by the end of December 2017 remaining unpaid VRS obligation.

CITY OF PETERSBURG, VIRGINIA

Schedule of Findings and Questioned Costs
Year Ended June 30, 2017 (Continued)

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-015 Compliance Findings - Stormwater Revenue Bond

Criteria: Bond proceeds should be expended for the purpose that was listed in the bond agreement.

Condition: In August 2015 the City Issued \$3,000,000 of Stormwater Revenue Bonds to finance variance storm water system improvements and to pay for certain issuance costs of the 2015 Bond as described in the attached bond document. The document also states that the Issuer ("the City") does not expect to reimburse itself from the bond proceeds for any expenditures incurred prior to the bond closing date. These proceeds were recorded in Fund 380, Capital Project Fund. In August 2015 after bond closing, the bond closing agent deposited \$3,000,000 into a separate SunTrust account titled "FY16 Stormwater CIP." During the months of September 2015, November 2015 and February 2016, the total amount of \$2,939,938 was transferred out of the SunTrust CIP bank account into the City's operating bank account. Per the City's general ledger, only \$1,040,628 was recorded as stormwater project expenditures in Fund 380. There was also \$87,139.14 paid to Davenport and McGuire Woods for Issuance costs. As part of the audit we examined documentation supporting the transfers out of the Stormwater CIP Account (see attached for documentation). During the course of the audit procedures we noted an email dated September 10, 2015 from the Assistant Finance Director sent to the Finance Director that stated the following: *"Recommend we transfer from SW account \$600k today to meet payroll."* We also noted an email dated November 23, 2015 from the Assistant Finance Director to the Deputy Treasurer and with a copy of the email to the Finance Director which stated *"Please transfer \$400,000 from the Storm Water account to the city concentration account. The plan is to transfer the funds back on December 1st after the state reimbursements post for Nov 30th."* We noted that these funds were not transferred back into the Stormwater bank account during fiscal year 2016. Additionally, there were various emails requesting transfers from the Stormwater CIP bank account to the City concentration bank account that did not list the specific intent of the transfer out. Based on the correspondence found during the audit and audit procedures performed it appears the City utilized \$1,812,170.39 of the \$3,000,000 Stormwater Revenue Bonds for payroll and/or other City operating costs and not for the purpose and intent of the bond issuance. During FY 17, the City spent \$145,989 on approved Stormwater projects.

Cause: Due to the City's poor financial condition, the city decided to use bond proceeds to cover payroll and other operating costs.

Effect: Violation of the Financing agreement could potentially lead to the revocation of the tax-exempt status of interest on the bond or could trigger an Event of Default.

CITY OF PETERSBURG, VIRGINIA

Schedule of Findings and Questioned Costs
Year Ended June 30, 2017 (Continued)

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-015 Compliance Findings - Stormwater Revenue Bond: (Continued)

Recommendation:

We recommend the City contact bond counsel to determine the consequences and required corrective action.

Management Response:

We concur with the recommendation. The City has contacted bond counsel to determine the consequences and required corrective action.

2017-016 Compliance Finding - Expenditures in Excess of Appropriations

Criteria: Per the Code of Virginia, an expenditure should not be incurred until first an appropriation is made authorizing the expenditures.

Condition: The City had expenditures in excess of appropriations for the following functions in the general fund:

<u>Function</u>	<u>Expenditures in Excess of Appropriations</u>
General Government Admin	\$ 541,539
Public Safety	\$ 97,357
Community development	\$ 144,224
Debt Service	\$ 347,676

Cause: The City did not have procedures in place to monitor appropriations and expenditures.

Effect: The City incurred expenditures without a corresponding appropriation authorizing the expenditure.

Recommendation:

We recommend the City implement procedures to ensure an appropriation is made prior to incurring the expenditure.

Management Response:

We concur with the recommendation. The City has developed monthly reporting to City Council on budget performance to eliminate City Departments/Function expenditures exceeding appropriations.

CITY OF PETERSBURG, VIRGINIA

Schedule of Findings and Questioned Costs
Year Ended June 30, 2017 (Continued)

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-017 Compliance Findings - Establishment of a Social Services Board

Criteria: Code of Virginia Section 63.2-300 requires all Counties and Cities to establish or be a part of a joint Social Services board.

Condition: Through inquiry of the DSS Executive Director, the process of establishing a board was started in either FY2012 or FY2013 but was never implemented.

Cause: The City did not establish the required Board.

Effect: The City does not have a Social Services Board as required by the Code of Virginia.

Recommendation:

We recommend the City establish a Social Services Board and maintain minutes of the Board Meetings.

Management Response:

We concur with the recommendation. The City will take appropriate action to establish a Social Services Board and maintain minutes of the Board Meetings.

2017-018 Compliance Finding - Special Welfare Bank Account

Criteria: Individuals/clients with sustained Special Welfare balance must be deposited in separate interest bearing accounts.

Condition: The Special Welfare bank account is not an interest bearing account.

Cause: When the Special Welfare bank account was established, it was not set up as an interest bearing account.

Effect: Individuals/clients with sustained Special Welfare balances are not earning interest as required.

Recommendation:

We recommend the City establish and interest bearing account for Special Welfare.

Management Response:

We concur with the recommendation. The City will take appropriate action to establish an interest bearing account for Special Welfare.

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-019 Compliance Finding - Special Welfare Ledger

Criteria: The Special Welfare ledger account maintained by the Department of Social Services should be reconciled with the Special Welfare bank statement maintained by the City's Treasurer Office.

Condition: The Special Welfare ledger account maintained by the Department of Social Services does not reconcile with the Special Welfare bank statement maintained by the City's Treasurer Office.

Cause: The City did not have procedures in place to reconcile the Special Welfare ledger and the Special Welfare bank account.

Effect: Errors could occur without being detected in the Special Welfare Ledger or Special Welfare Bank Account.

Recommendation:

We recommend the Special Welfare ledger and Special Welfare bank account are reconciled on a monthly basis and that any discrepancies are investigated, documented, and corrected.

Management Response:

We concur with the recommendation. The City will develop and implement procedures to ensure the Special Welfare ledger and Special Welfare bank account are reconciled on a monthly basis and all discrepancies are investigated, documented, and/or corrected.

2017-020 Compliance Finding - VRS Line of Duty Act

Criteria: Local Governments that have employees who participate in the Line of Duty Act Program with benefits being paid through the VRS-administered trust fund should be providing and updated roster list for participating employees to VRS annually.

Condition: The City was not providing a roster list of employees who are participating in the Line of Duty Act Program to VRS on an annual basis.

Cause: The City was making premium payments for only employees who were insured, instead of all covered employees.

Effect: The City is not in compliance with VRS's Line of Duty Act program requirements.

CITY OF PETERSBURG, VIRGINIA

Schedule of Findings and Questioned Costs
Year Ended June 30, 2017 (Continued)

SECTION II - FINANCIAL STATEMENT FINDINGS: (CONTINUED)

2017-020 Compliance Finding - VRS Line of Duty Act

Recommendation:

We recommend the City provide a roster listing of employees who are participating in the VRS administered Line of Duty Act Program. At a minimum, the roster listing should include the following for each participating employee; Name (First, Last, Middle Initial), Gender, Date of Birth, Agency, and Personnel Type.

Management Response:

We concur with the recommendation. The City will develop and implement procedure to provide a roster listing of employees who are participating in the VRS administered Line of Duty Act Program. At a minimum, the roster listing will include the following for each participating employee; Name (First, Last, Middle Initial), Gender, Date of Birth, Agency, and Personnel Type.

2017-021 Compliance Finding - Procurement

Criteria: For contracts of \$200,000 or more for construction of highways, roads, streets, bridges, parking lots, demolition, clearing, grading, excavating, paving, pile driving, miscellaneous drainage structures, and the installation of water, gas, sewer lines and pumping stations where portions of the contract price are to be retained by the political subdivision (City), the bid proposal must include an option for the contractor to use an escrow account procedure for utilization of the political subdivision's retainage funds. (Section 2.2-4334).

Condition: The contracts with Virginia Concrete Construction, Inc. for Route 36 pavement overlay in the amount of \$228,560 did not have this required option.

Cause: The City did not have procedures in place to ensure contracts of \$200,000 or more for construction of highways, roads, streets, bridges, parking lots, demolition, clearing, grading, excavating, paving, pile driving, miscellaneous drainage structures, and the installation of water, gas, sewer lines and pumping stations where portions of the contract price are to be retained by the political subdivision (City) included this option.

Effect: The City is not complying with the Code of Virginia.

Recommendation:

We recommend the City implement procedures to ensure contracts of \$200,000 or more for construction of highways, roads, streets, bridges, parking lots, demolition, clearing, grading, excavating, paving, pile driving, miscellaneous drainage structures, and the installation of water, gas, sewer lines and pumping stations where portions of the contract price are to be retained by the political subdivision (City), the bid proposal includes an option for the contractor to use an escrow account procedure for utilization of the political subdivision's retainage funds.

2017-021 Compliance Finding - Procurement: (Continued)

Management Response:

We concur with the recommendation. The City will ensure future bid proposals include an option for the contractor to use an escrow account procedure for utilization of the political subdivision's retainage funds.

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2017-022 Federal Award Finding - Subrecipient Monitoring:

Program: Workforce Investment Act Cluster (CFDA 17.258/17.259/17.278 - Department of Labor)

Federal Award Number: LWA 15-16-03 Year: 2016
Federal Award Number: LWA 15-15-03 Year: 2015

Criteria: Federal awards that are passed-through to a subrecipient are subject to Subrecipient Monitoring requirements under OMB Uniform Guidance. A pass-through entity is responsible for the following; Determining Subrecipient Eligibility, Award Identification, During-the-Award Monitoring, and ensuring that subrecipients expending \$750,000 or more in Federal Awards during the fiscal year have met the audit requirements of 2 CFR part 200, subpart F of Uniform Guidance.

Condition: The City was not performing During-the-Award Monitoring of its subrecipients. Further, the City was not ensuring that its subrecipients were meeting the audit requirements of 2 CFR part 200, subpart F of Uniform Guidance.

Context: The City passed-through Workforce Investment Grant funds to the Crater Regional Workforce Investment Board & Learn to Earn, Inc. The City was not monitoring the subrecipient's use of the Federal awards through reporting, site visits, regular contact or any other means to provide reasonable assurance that the subrecipient administers the federal awards in compliance with laws, regulations, and the provisions of the grant agreements and that performance goals were being met. Further, the City was not ensuring that the Crater Regional Workforce Investment Board & Learn to Earn, Inc. was meeting the audit requirements of 2 CFR part 200, Subpart F of the Uniform Guidance.

Cause: City personnel were not aware of its subrecipient monitoring requirements.

Effect: The City has not complied with its subrecipient monitoring requirements. Noncompliance could lead to loss of grant funds.

Questioned Costs: \$0

CITY OF PETERSBURG, VIRGINIA

Year Ended June 30, 2017 (Continued)

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS: (CONTINUED)

2017-022 Federal Award Finding - Subrecipient Monitoring: (Continued)

Recommendation:

We recommend the City implement procedures to ensure compliance with grant funds and the related grant awards.

Management Response:

We concur with the recommendation. The City will develop and implement procedures to ensure compliance with grant funds and the related grant awards.

2017-023 Federal Award Finding - Allowable Activities

Program: Child Nutrition Cluster (CFDA 10.553 & 10.555 - Department of Agriculture)

Federal Award Number: 201717N109941	Year: 2017
Federal Award Number: 201616N109941	Year: 2016
Federal Award Number: 2015IN109941	Year: 2015

Criteria: Reimbursement of the Federal Awards is determined by applying the applicable number of meals served times the reimbursement rates.

Condition: The School Board was not entering the correct number of meals served each month when completing the SNP Monthly Reimbursement by SNP Unit Report - (SNP017). There were some months in which the School Board over reported the number of meals served and some months in which the School Board under reported the number of meals served.

Context: Out of 10 months tested, 4 months were under reimbursed and 2 months were over reimbursed. There were 3 instances in which the School Board did not enter any meals served for an individual School for the month. There was 1 instance in which the School Board enter the number of meals served as breakfast instead of lunch. There were 4 instances in which the amount entered for number of meals served was incorrect.

Cause: The School Board was not ensuring that the information entered into the month reimbursement request was accurate.

Effect: The School Board was not complying with the grant requirements and was under reimbursed by \$9,972 during FY 17.

Questioned Costs: \$0

CITY OF PETERSBURG, VIRGINIA

2016-001 Material Weakness - Utility Billing Reconciliation

Condition: The City was not reconciling the Utility Billing Subsidiary System to the General Ledger on a monthly basis.

Recommendation:

We recommend the City implement procedures to ensure the Utility Billing Subsidiary System reconciles to the General Ledger and any differences noted during the reconciliation are documented and corrected.

Current status:

See finding 2017-001

2016-002 Material Weakness - Utility Billing Reconciliation System

Condition: The Utility Billing Reconciliation System has not been interfaced properly for some time. The interface issues are related to the system's ability to reconcile the outstanding A/R amounts to what the system believes the accounting system should reflect.

Recommendation:

We recommend the City correct the interfaces within the reconciliation module so that the reconciliation system is accurate.

Current status:

See finding 2017-002

2016-003 Material Weakness - Utility Billing Errors and Insufficient Edit Checks

Condition: During FY16, utility bills were processed and mailed with substantial errors, whereby customers were billed for utilities in amounts that were far in excess of a reasonable bill.

Recommendation:

We recommend the City implement procedures to ensure adequate edit checks are preformed prior to finalizing the billings.

Current status:

See finding 2017-003

CITY OF PETERSBURG, VIRGINIA

FINANCIAL STATEMENT FINDINGS (CONTINUED)

2016-004 Material Weakness - Lack of Internal Controls over Adjustments to Customer Utility Accounts

Condition: Based on our testing and pursuant to discussions with City personnel, for a majority of the fiscal year ending June 30, 2016, there were no internal controls in place over the adjustment of customer utility accounts.

Recommendation:

We recommend the City implement internal controls over adjustments to customer utility accounts to prevent unauthorized write-offs to customer accounts.

Current status:

See finding 2017-004

2016-005 Material Weakness- Lack of Documentation Over Adjustments to Utility Billings

Condition: During the fiscal year ending June 30, 2016, the City recorded material adjustments to utility bills, however, the City did not retain documentation supporting the purpose or reason adjustments were necessary.

Recommendation:

We recommend the City retain appropriate documentation to support and substantiate adjustments made to utility bills.

Current status:

See finding 2017-005

2016-006 Material Weakness - Insufficient Documentation for Water and Sewer Connection Charges

Condition: It was noted during the audit that there was no documentation to support the individually significant water and sewer connection charges. Connection charges comprised a substantial amount of the total utility fund revenues.

Recommendation:

We recommend the City retain sufficient supporting documentation to support water and sewer connection charges collected.

Current status:

This finding was not present in the current year.

Year Ended June 30, 2017 (Continued)

FINANCIAL STATEMENT FINDINGS (CONTINUED)

2016-007 Material Weakness - Reconciliation of Property Tax Delinquent Lists to General Ledger

Condition: During fiscal year 2016 the City was not reconciling the property tax delinquent lists to the taxes receivable accounts as reported in the general ledger on a monthly basis or at year-end.

Recommendation:

We recommend the City reconcile property tax delinquent lists to the general ledger on a monthly basis and any differences be investigated and corrected.

Current status:

See finding 2017-007

2016-008 Material Weakness - Insufficient Accounting and Financial Reporting Throughout the Fiscal Year

Condition: During our audit we have observed the City's contracted audit preparation consultant was required to record a large number of adjustments at year-end. Moreover, it was necessary for the consultant to perform numerous reconciliations to prepare the City's accounting records for the audit and external reporting purposes. Many of the adjustments and reconciliations performed by the consultant should be conducted throughout the year as part of routine accounting and financial reporting procedures.

Recommendation:

We recommend the City evaluate the Finance Department and develop procedures to aid in accounting and financial reporting for capital assets, long-term obligations, general property tax receivables, water and sewer receivables, other miscellaneous receivables, state and federal revenues and similar accounts that have required adjustments by the contracted consultant. We also recommend development of a monthly procedural checklist which would require a specified individual to perform reviews of budget-to-actual results for revenues and expenditures actual as well as monitoring the balance sheet accounts. By implementing procedures in the Finance Department by qualified Finance personnel the City would benefit from reliable financial data through-out the fiscal year in addition to reducing the number of adjustments required at year-end.

Current status:

FINANCIAL STATEMENT FINDINGS (CONTINUED)

2016-009 Material Weakness- Material Audit Adjustments Proposed by the External Auditor

Condition: The financial statements required material adjustments by the Auditor to ensure such statements complied with Generally Accepted Accounting Principles (GAAP). Material audit adjustments were proposed to a multitude of accounts and financial statement groups including receivables, capital assets, payroll liabilities, deferred revenue, debt and revenue and expenditure accounts to be in accordance with Generally Accepted Accounting Principles.

Recommendation:

We recommend the City implement procedures to ensure the financial statements are materially correct in accordance with General Accepted Accounting Principles.

Current status:

See finding 2017-009

2016-010 Material Weakness - Unrecorded Material Capital Lease

Condition: Our audit procedures disclosed a capital lease with Motorola in the amount of \$797,000 entered into during the fiscal year ending June 30, 2015 that was recorded by the City.

Recommendation:

We recommend the City implement procedures to ensure all capital leases are identified and recorded in the financial statements as required by Generally Accepted Accounting Principles.

Current status:

Finding not present in current year.

2016-011 Material Weakness - Material Reclassifications Proposed to Federal Revenues

Condition: The Auditor proposed material adjustments to the City's recording of revenues received from federal sources - direct and pass-through federal revenues. The City had commingled and misclassified a multitude of federal revenues with state and/or local revenues within the accounting system.

Recommendation:

We recommend the City implement procedures to ensure the City's federal revenues are appropriately accounted for and reported. This includes maintaining a list of all federal grants received, the CFDA number for each federal grant, the amount expended for each federal grant, the amount received for each federal grant, and a review process ensuring that all federal revenues are accurately recorded in the general ledger.

Current status:

2016-012 Golf Course Point-of-Sale System

Condition: The City's Golf Course installed a new point-of-sale system in January 2016. Documentation was not retained for the first half of the fiscal year to support the detailed receipt information received at the Golf Course.

Recommendation:

We recommend the City implement procedures to ensure information is retained when system changes are made.

Current status:

Finding not present in current year.

2016-013 Material Weakness - Internal Controls over Inventory

Condition: Routinely, an inventory count/verification is requested of various departments by the Finance Department. The inventory sheets are remitted to the Finance Department. There was a lack of monitoring or review process over the data and information received as part of these requests from other departments.

Recommendation:

We recommend an adequately trained and independent City staff member perform the inventory count/verification. Also staff personnel from the Finance Department monitor and review the process.

Current status:

See finding 2017-012

2016-014 Compliance Finding - Prompt Payment of Bills by Localities

Condition: As a result of the City's financial condition, there were many instances in which the City was not remitting payment to vendors for goods and services in a timely manner. Additionally, the City would process checks, but subsequently hold the checks because the City did not have sufficient funds to cover the checks. A listing of held checks was obtained from the City's Finance Department on July 29, 2016 which contained checks processed but not mailed totaling \$10,258,436.87. The dates of the checks ranged from January 14, 2016 to July 15, 2016.

Recommendation:

We recommend the City pay its vendors in a timely manner.

2016-015 Compliance Findings - Nonpayment of Virginia Retirement System Contributions

Condition: At June 30, 2016 the City had \$2,355,807.70 of retirement contributions that had not been remitted to VRS. The unpaid balance represents the City's portion (employer contribution) of the contributions for the months November 2015 to April 2016 and June 2016.

Recommendation:

We recommend the City pay its VRS contributions in a timely manner.

Current status:

See finding 2017-014

2016-016 Compliance Findings - Stormwater Revenue Bond

Condition: In August 2015 the City Issued \$3,000,000 of Stormwater Revenue Bonds to finance variance storm water system improvements and to pay for certain issuance costs of the 2015 Bond as described in the attached bond document. The document also states that the Issuer ("the City") does not expect to reimburse itself from the bond proceeds for any expenditures incurred prior to the bond closing date. These proceeds were recorded in Fund 380, Capital Project Fund. In August 2015 after bond closing, the bond closing agent deposited \$3,000,000 into a separate SunTrust account titled "FY16 Stormwater CIP." During the months of September 2015, November 2015 and February 2016, the total amount of \$2,939,938 was transferred out of the SunTrust CIP bank account into the City's operating bank account. Per the City's general ledger, only \$1,040,628 was recorded as stormwater project expenditures in Fund 380. There was also \$87,139.14 paid to Davenport and McGuire Woods for Issuance costs. As part of the audit we examined documentation supporting the transfers out of the Stormwater CIP Account (see attached for documentation). During the course of the audit procedures we noted an email dated September 10, 2015 from the Assistant Finance Director sent to the Finance Director that stated the following: *"Recommend we transfer from SW account \$600k today to meet payroll."* We also noted an email dated November 23, 2015 from the Assistant Finance Director to the Deputy Treasurer and with a copy of the email to the Finance Director which stated *"Please transfer \$400,000 from the Storm Water account to the city concentration account. The plan is to transfer the funds back on December 1st after the state reimbursements post for Nov 30th."* We noted that these funds were not transferred back into the Stormwater bank account during fiscal year 2016. Additionally, there were various emails requesting transfers from the Stormwater CIP bank account to the City concentration bank account that did not list the specific intent of the transfer out. Based on the correspondence found during the audit and audit procedures performed it appears the City utilized \$1,812,170.39 of the \$3,000,000 Stormwater Revenue Bonds for payroll and/or other City operating costs and not for the purpose and intent of the bond issuance.

2016-017 Compliance Finding - Expenditures in Excess of Appropriations

Condition: The City had expenditures in excess of appropriations for the following functions in the general fund:

<u>Function</u>	<u>Expenditures in Excess of Appropriations</u>
General Government Admin	\$ 59,453
Public Safety	\$ 303,053
Health and Welfare	\$ 449,464
Debt Service	\$ 1,307,841

Recommendation:

We recommend the City implement procedures to ensure an appropriation is made prior to incurring the expenditure.

Current status:

See finding 2017-016

2016-018 Compliance Findings - Establishment of a Social Services Board

Condition: Through inquiry of the DSS Executive Director, the process of establishing a board was started in either FY2012 or FY2013 but was never implemented.

Recommendation:

We recommend the City establish a Social Services Board and maintain minutes of the Board Meetings.

Current status:

2016-019 Compliance Finding- No Annual Review of Employee System Access at local Department of Social Services

Condition: The Department currently examines access for all new; however, there is no subsequent annual review of system access after the initial hire date.

Recommendation:

We recommend the Department of Social Services implement procedures to ensure system access for all employees is reviewed on an annual basis.

Current status:

The finding is not present in the current year.

2016-020 Compliance Finding - Special Welfare Bank Account

Condition: The Special Welfare bank account is not an interest bearing account.

Recommendation:

We recommend the City establish and interest bearing account for Special Welfare.

Current status:

See finding 2017-018

2016-021 Compliance Finding - Special Welfare Ledger

Condition: The Special Welfare ledger account maintained by the Department of Social Services does not reconcile with the Special Welfare bank statement maintained by the City's Treasurer Office.

Recommendation:

We recommend the Special Welfare ledger and Special Welfare bank account are reconciled on a monthly basis and that any discrepancies are investigated, documented, and corrected.

Current status:

2016-022 Compliance Finding - Virginia Resources Authority's ("VRA") Series 2015A Loan Covenant

Condition: Pursuant to a letter obtained from VRA dated March 1, 2017, the plan required by Virginia Resources Authority's (VRA) Series 2015A loan for the City to adopt a five year water and sewer system rate plan for the Public Utilities Fund, covering fiscal years 2016 through 2020 has not been implemented.

Recommendation:

We recommend the City implement procedures to ensure compliance with bond agreements.

Current status:

The finding is not present in the current year.

2016-023 Compliance Finding - Procurement

Condition: Contracts with Branscome, Inc. for Route 460 pavement overlay in the amount of \$3,140,000 and Allan Myers VA, Inc. for West Washington Street payment overlay in the amount of \$515,320 did not have the required option of For contracts of \$200,000 or more for construction of highways, roads, streets, bridges, parking lots, demolition, clearing, grading, excavating, paving, pile driving, miscellaneous drainage Structures, and the installation of water, gas, sewer lines and pumping stations where portions of the contract price are to be retained by the political subdivision (City), the bid proposal must include an option for the contractor to use an escrow account procedure for utilization of the political subdivision's retainage funds. (Section 2.2-4334).

Recommendation:

We recommend the City implement procedures to ensure contracts of \$200,000 or more for construction of highways, roads, streets, bridges, parking lots, demolition, clearing, grading, excavating, paving, pile driving, miscellaneous drainage structures, and the installation of water, gas, sewer lines and pumping stations where portions of the contract price are to be retained by the political subdivision (City), the bid proposal includes an option for the contractor to use an escrow account procedure for utilization of the political subdivision's retainage funds.

FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2016-024 Federal Award Finding - Allowable Activities and Cash Management

Program: Assistance to Firefighters Grant (CFDA 97.044 - Federal Emergency Management Agency)

Federal Award Number: EMW-2014-FO-02832 Year: 2014

Condition: On December 11, 2015, the City received \$385,042 in Assistant to Firefighters federal grant funds for the purchase of SCBA fire equipment. The City never paid the vendor's invoices for goods provided and as a result the vendor repossessed the equipment. On July 15, 2015, the City received \$183,368 in Assistant to Firefighters federal grant funds for the purchase of fire turnout gear. On February 19, 2016, the City received a notice from the vender demanding payment for the fire turnout gear previously received by the City.

Recommendation:

We recommend the City implement procedures to ensure compliance with grant funds and the related grant awards.

Current status:

This finding is not present in the current year.

2016-025 Federal Award Finding - Allowable Activities and Cash Management

Program: Federal Transit Cluster (CFDA 20.507 & 20.500 - Department of Transportation)

Federal Award Number: 42,424.00 VA-90-4433 Year: 2015
Federal Award Number: 37,231.00 VA-90-4433 Year: 2015
Federal Award Number: 63,900.00 VA-90-0415 Year: 2015
Federal Award Number: 30,762.00 VA-34-0005 Year: 2015

Condition: The City received \$66,666.68 from April 2016 through July 2016 of federal Transit Cluster grant funds as reimbursement/payment for invoices to the Greater Richmond Transit Company. The invoices were never paid and the checks were voided. These invoices were not paid until April 5, 2017.

Recommendation:

We recommend the City implement procedures to ensure compliance with grant funds and the related grant awards.

Current status:

This finding is not present in the current year.
