

Subject Area	Citation	Name	Description	Facilities Management
Resource Conservation and Recovery Act - Solid Waste	40 CFR 243	Guidelines for the Storage and Collection of Residential, Commercial and Institutional Solid Waste	Establishes guidelines applicable to the collection of residential, commercial, and institutional solid wastes and street wastes. Explicitly excluded are mining, agricultural, and industrial solid wastes; hazardous wastes; sludges; construction and demolition wastes; and infectious wastes.	✓
	40 CFR 246	Source Separation for Materials Recovery Guidelines	Establishes guidelines applicable to the source separation of residential, commercial, and institutional solid wastes. Explicitly excluded are mining, agricultural, and industrial solid wastes; hazardous wastes; sludges; construction and demolition wastes; infectious wastes; classified waste. This is mandatory for federal agencies and recommended for state and local government agencies.	✓
	40 CFR 247	Comprehensive Procurement Guidelines for Products Containing Recovered Materials	Provides guidelines to assist in meeting procurement requirements for products containing recovered materials. It applies to Federal agencies, to State and local agencies using appropriated Federal funds to procure designated items, and to persons contracting with any such agencies with respect to work performed under such contracts.	✓
	40 CFR 257	Criteria for Classification of Solid Waste Disposal Facilities and Practices	Provides guidelines for determining which solid waste disposal facilities and practices pose a reasonable probability of adverse effects on health or the environment (defines "open dumps")	---
	40 CFR 258	Criteria for Municipal Solid Waste Landfills	Establishes minimum national criteria under the RCRA for all municipal solid waste landfill units and under the Clean Water Act for municipal solid waste landfills that are used to dispose of sewage sludge.	---
Resource Conservation and Recovery Act - Hazardous Waste	40 CFR 260	Hazardous Waste Management System - General	Definitions; procedures for rulemaking petitions and waste delistings.	✓
	40 CFR 261	Identification and Listing of Hazardous Wastes	Identifying solid and hazardous wastes; exemptions and exclusions.	✓
	40 CFR 262	Standards Applicable to Generators of Hazardous Wastes	Standards for hazardous waste generators.	✓
	40 CFR 263	Standards Applicable to Transporters of Hazardous Wastes	Standards for hazardous waste transporters.	✓
	40 CFR 265	Interim Status Standards for Owners and Operators of Hazardous Waste Treatment, Storage and Disposal Facilities	Standards for interim status treatment, storage, and disposal facilities. This section also includes requirements applicable to hazardous waste generators by reference.	✓
	40 CFR 266	Standards for the Management of Specific Hazardous Wastes and Specific Types of Hazardous Waste Management Facilities	Standards for the management of specific hazardous wastes and specific types of hazardous waste management facilities.	✓

Subject Area	Citation	Name	Description	Facilities Management
	40 CFR 268	Land Disposal Restrictions	Regulations controlling the land disposal of hazardous wastes.	✓
	40 CFR 273	Standards for Universal Waste Management	Standards for the management of universal wastes, including "mercury containing devices", "batteries", "lamps" and "pesticides" as these terms are defined in the regulations.	✓
	40 CFR 279	Standards for the Management of Used Oil	Standards for the management of used oil.	✓

Subject Area	Citation	Name	Description	Facilities Management
Resource Conservation and Recovery Act - Underground Storage Tanks	40 CFR 280	Technical Standards and Corrective Action Requirements for Owners and Operators of Underground Storage Tanks	Standards for underground storage tanks that contain petroleum or hazardous substances other than hazardous wastes.	---
Emergency Planning and Community Right-To-Know Act	40 CFR 355	Emergency Planning and Notification	Establishes the list of extremely hazardous substances, threshold planning quantities, and facility notification responsibilities necessary for the development and implementation of State and local emergency response plans.	✓
	40 CFR 370	Hazardous Chemical Reporting: Community Right-To-Know	Establishes reporting requirements which provide the public with important information on the hazardous chemicals in their communities for the purpose of enhancing community awareness of chemical hazards and facilitating development of State and local emergency response plans.	✓
	40 CFR 372	Toxic Chemical Release Reporting: Community Right-To-Know	Sets forth requirements for the submission of information relating to the release of toxic chemicals under SARA Title III.	---
Toxic Substances Control Act	40 CFR 761	PCBs Manufacturing, Processing, Distribution in Commerce and Use Prohibitions	Includes management requirements for PCB-containing equipment in use as well as after the equipment's useful life is over, to include transportation and disposal (includes PCB-containing ballasts for fluorescent lamps).	✓
	40 CFR 763	Asbestos	Requires local education agencies to identify friable and nonfriable asbestos-containing material (ACM) in public and private elementary and secondary schools and develop and implement management plans. It also protects certain State and local government employees who are not protected by the Asbestos Standards of OSHA.	---
Clean Air Act	40 CFR 50	National Primary and Secondary Ambient Air Quality Standards	Establishes the national primary and secondary ambient air quality standards required to protect health.	✓
	40 CFR 58	Ambient Air Quality Surveillance	Contains criteria and requirements for ambient air quality monitoring and requirements for reporting ambient air quality data and information by state and local air pollution control agencies and proposed new sources.	✓
	40 CFR 60	Standards of Performance for New Stationary Sources	Provides requirements applicable to the owner or operator of any stationary source which contains an affected facility, the construction or modification of which is commenced after the date of publication in this part of any standard.	✓
	40 CFR 61	National Emissions Standards for Hazardous Air Pollutants	Provides the numeric standards for hazardous air pollutants for stationary sources regulated under 40 CFR 60.	✓
	40 CFR 63	National Emissions Standards for Hazardous Air Pollutants for Source Categories	Provides the numeric standards for hazardous air pollutants by stationary source category	✓
	40 CFR 68	Chemical Accident Prevention Provisions	Sets forth the list of regulated substances and thresholds and the requirements for owners or operators of stationary sources concerning the prevention of accidental releases.	---
	40 CFR 82	Protection of Stratospheric Ozone	Implements the Montreal Protocol on Substances that Deplete the Ozone Layer and provides restrictions on any person that produces, transforms, destroys, imports or exports a controlled substance or imports or exports a controlled product.	✓
	CAA (r)	CAA General Duty Clause	This statutory provision requires all stationary sources of air emissions that use regulated substances ensure they are following relevant safety codes and standards to provide a safe working environment.	✓
	40 CFR 98	Mandatory Greenhouse Gas Reporting	Sets forth mandatory greenhouse gas reporting requirements beginning in calendar year 2010 for specified sectors (including municipal waste landfills).	---

Subject Area	Citation	Name	Description	Facilities Management	
Clean Water Act & Oil Pollution Act	40 CFR 109	Criteria for State, Local and Regional Oil Removal Contingency Plans	Provides guidance to assist State, local and regional agencies in the development of oil removal contingency plans for the inland navigable waters of the United States and several other areas.	---	
	40 CFR 110	Discharge of Oil	Provides reporting requirements for discharges of oil.	✓	
	40 CFR 112	Oil Pollution Prevention	Establishes procedures, methods, equipment, and other requirements to prevent the discharge of oil.	✓	
	40 CFR 116	Designation of Hazardous Substances	This regulation designates hazardous substances under the Clean Water Act.	✓	
	40 CFR 117	Determination of Reportable Quantities for Hazardous Substances	Provides numerical Reportable Quantities for hazardous substances as defined by the Clean Water Act.	✓	
	40 CFR 122-135	National Pollutant Discharge Elimination System	Provides wastewater treatment and disposal regulations. This program has been delegated to the state level. See 9 VAC 25-31-10 et seq.	---	
	40 CFR 136	Guidelines Establishing Test Procedures for the Analysis of Pollutants	Identifies analytical procedures acceptable for use in analyzing wastewater streams as required under the NPDES program.	---	
	40 CFR 230	Section 404(b)(1) Guidelines for Specification of Disposal Sites for Dredged or Fill Material.	Provides guidelines on the specification of disposal sites for discharges of dredged or fill material into waters of the United States.	---	
	40 CFR 232	404 Program Definitions; Exempt Activities Not Requiring 404 Permits	Contains definitions applicable to the section 404 program for discharges of dredged or fill material. These definitions apply to both the federally operated program and State administered programs after program approval.	---	
	Safe Drinking Water Act	40 CFR 141	National Primary Drinking Water Regulations	Establishes primary drinking water regulations applicable to public water systems.	---
40 CFR 142		National Primary Drinking Water Regulations Implementation	Presents regulations for the implementation and enforcement of the national primary drinking water regulations in 40 CFR 141.	---	
40 CFR 143		National Secondary Drinking Water Regulations	Establishes National Secondary Drinking Water Regulations to control contaminants in drinking water that primarily affect the aesthetic qualities relating to the public acceptance of drinking water. They are not Federally enforceable but are intended as guidelines for the States.	---	
40 CFR 144		Underground Injection Control Program	Establishes a program restricting the injection of wastes into the subsurface. In Virginia this is a federally-implemented program.	---	
40 CFR 146		Underground Injection Control Program Criteria and Standards	Sets forth technical criteria and standards for the Underground Injection Control Program.	---	
40 CFR 148		Hazardous Waste Injection Restrictions	Identifies wastes that are restricted from disposal into Class I UI wells and defines those circumstances under which a waste, otherwise prohibited from injection, may be injected.	---	
Federal Insecticide, Fungicide and Rodenticide Act		40 CFR 156	Labeling Requirements for Pesticides and Devices	Detailed requirements to ensure necessary information is communicated to users of pesticides and equipment.	---
		40 CFR 157	Packaging Requirements for Pesticides and Devices	Detailed requirements to ensure pesticides and devices are properly packaged, primarily to prevent accidental ingestion of pesticides.	---
	40 CFR 171	Certification of Pesticide Applicators	Provides requirements related to the certification of applicators of restricted use pesticides.	✓	

Subject Area	Citation	Name	Description	Facilities Management
Hazardous Materials Transportation Act	49 CFR 171	General Information, Regulations and Definitions	Prescribes requirements governing the offering of hazardous materials for transportation by rail car, aircraft, motor vehicle and vessel.	✓
	49 CFR 172	Hazardous Materials Table, Special Provisions, Hazardous Materials Communications, Emergency Response Information and Training Requirements and Security Plans	Lists and classifies hazardous materials and prescribes requirements for shipping papers, package marking, labeling and transport vehicle placarding.	✓
	49 CFR 173	Shippers - General Requirements for Shipments and Packagings	Defines hazardous materials for transportation purposes, requirements for preparing shipments, and inspection, testing, and retesting responsibilities for persons who retest, recondition, maintain, repair and rebuild containers.	✓
	49 CFR 177	Carriage by Public Highway	Prescribes requirements for the acceptance and transportation of hazardous materials by motor vehicle.	✓
	49 CFR 178	Specifications for Packagings	Prescribes the testing and manufacturing specifications for packaging and containers used in transporting hazardous materials in commerce.	✓
	49 CFR 180	Continuing Qualification and Maintenance of Packages	Prescribes requirements for all aspects of hazardous material container maintenance and reuse.	✓
Emergency Response	29 CFR 1910.120	Hazardous Waste Operations and Emergency Response	Provides the safety requirements necessary to conduct five levels of hazardous waste operations and emergency response.	✓
CERCLA	40 CFR 300	National Oil and Hazardous Substances Pollution Contingency Plan	Describes the National Oil and Hazardous Substances Pollution Contingency Plan (NCP) and details the organizational structure and procedures for preparing for and responding to discharges of oil and releases of hazardous substances, pollutants, and contaminants.	---
	40 CFR 302	Designation, Reportable Quantities, and Notification	Designates "hazardous substances" under CERCLA, identifies reportable quantities for these substances as well as for CWA "hazardous substances", and sets forth the notification requirements for releases of these substances.	✓
	40 CFR 304	Arbitration Procedures for Small Superfund Cost Recovery Claims	Establishes and governs procedures for the arbitration of EPA cost recovery claims arising under section 107(a) of CERCLA.	---
	40 CFR 305	CERCLA Administrative Hearing Procedures for Claims Against the Superfund	Governs all administrative proceedings for the total or partial denial of response claims asserted against the Superfund.	---
	40 CFR 307	CERCLA Claims Procedures	Prescribes the appropriate forms and procedures for presenting claims for necessary response costs as authorized by section 112(b)(1) of CERCLA.	---
	40 CFR 310	Reimbursement to Local Governments for Emergency Response to Hazardous Substance Releases	Sets up procedures for EPA to reimburse local governments for certain emergency response costs. Local governments may receive up to \$25,000 to help lighten financial burdens related to emergency response to hazardous substance releases.	---
	40 CFR 311	Worker Protection	The substantive provisions found at 29 CFR 1910.120 on and after March 6, 1990, and before March 6, 1990, found at 54 FR 9317 (March 6, 1989), apply to State and local government employees engaged in hazardous waste operations, as defined in 29 CFR 1910.120(a), in States that do not have a State plan approved under section 18 of OSHA (Virginia has such a plan).	---
	40 CFR 312	Innocent Landowners, Standards for Conducting All Appropriate Inquiries	Defines "all appropriate inquiry" for "potential innocent landowners", "bona fide prospective purchasers" and "contiguous property owners."	---

Subject Area	Citation	Name	Description	Facilities Management
Security	6 CFR 27	Chemical Facility Anti-Terrorism Standards	Enhances security by requiring facilities that store hazardous materials in excess of certain thresholds perform a risk and consequence assessment and respond to minimize the threat if warranted.	---
